Des Plaines, Illinois 60016  
(T) 847.294.4121  
(F) 847.294.4799

February 1, 2025

Governor JB Pritzker  
Members of the General Assembly  
Citizens of Illinois

Section 16-190(b) of the Property Tax Code (35 ILCS 200/16-190(b)) requires the Property Tax Appeal Board to file an annual report that contains the following information for each county:

- (1) the total number of cases for commercial and industrial property requesting a reduction in assessed value of \$100,000 or more for each of the last five years;
- (2) the total number of cases for commercial and industrial property decided by the Property Tax Appeal Board for each of the last five years; and
- (3) the total change in assessed value based on the Property Tax Appeal Board decisions for commercial property and industrial property for each of the last five years.

The Board continues to work toward fulfilling its original mission – to hear and adjudicate assessment disputes in a timely manner. We encourage taxpayers who want to become more familiar with the property assessment appeal process to first visit the web site at [ptab.illinois.gov](http://ptab.illinois.gov) and review the Frequently Asked Questions section, or call the Board's offices in Springfield and Des Plaines. You also may obtain a copy of the annual Synopsis of Representative Cases, available on the web site, or attend a Board hearing. Agency proceedings are open to the public and scheduled in various county seats throughout the year. Our hearing schedule can be found on our web site under the Hearing Schedule section on the Information tab.

Members, Property Tax Appeal Board

*Chicago*

# Mission Statement

---

The mission of the Illinois Property Tax Appeal Board is to hear and adjudicate real property assessment disputes filed before it as authorized by law. To achieve this purpose, and to instill public confidence in the integrity and efficiency of the state’s property assessment appeal process, the Board members and staff will pursue the following goals:

- Provide an informal forum, open to the public, for the timely hearing of contested appeals;
- Work to resolve appeals in a timely manner by issuing impartial decisions based upon equity and the weight of the evidence which set forth the Board’s findings;
- Establish clear, concise, accurate and timely communications with the public; and
- Maintain a work force that demonstrates the highest standards of integrity, efficiency and performance.

## Board members

The current members of the Property Tax Appeal Board bring a balance of various qualifications and backgrounds to the property tax assessment cases they decide. They are:

- **Kevin L. Freeman, Chairman** .....(Chicago)
- **Jim Bilotta** .....(Frankfort)
- **Robert J. Steffen** .....(South Barrington)
- **Dana D. Kinion** .....(Springfield)
- **Sarah Buckley** .....(Chicago)

Change in Assessed Value for  
Commercial and Industrial Appeals Report ..... 5

# **Creation and Authority of the Board**

The Property Tax Appeal Board (“PTAB” or the “Board”) is a quasi-judicial body made up of five members and a professional staff which aid the Board in performing its duties. The Board was created to provide a forum for taxpayers and taxing bodies that are dissatisfied with property assessments. Decisions of the Board are based upon “equity and the weight of evidence.” The Board determines only the correct assessment of property. The amount of a tax bill or the tax rate used to compute taxes are determined by local county officials and may not be appealed to the Board. In addition, the Board has no authority to exempt property from taxation.

The Board's five Members are appointed by the Governor with the advice and consent of the State Senate. The Members serve six-year terms, and no more than three may be from the same political party. The Governor designates a chairman.

Appeals are heard by a professional staff of administrative law judges who are either qualified in the field of real estate assessment or attorneys. The Board conducts its hearings virtually using the Webex platform and in-person at its offices and at the offices of local county officials throughout the State. Hearings are conducted according to rules established by the Board. The rules are less formal than those in a courtroom.

**NOTE:** To further highlight the Board’s productivity, which is not reflected in the data regarding commercial and industrial appeal decisions, the Board also closed approximately 29,255 residential appeals consisting of 62,720 parcels during calendar year 2024.

# Synopsis of Representative Cases

---

Pursuant to Section 16-190(a) of the Property Tax Code (35 ILCS 200/16-190(a)), the PTAB is required to publish each year a volume containing representative cases decided by the Board during that year. The synopsis is intended to aid the reader in understanding the issues confronted by the Board, and the kinds of evidence and documentation which meet with success.

In the synopsis, the annual volume of representative cases contains a chapter devoted to each type of property heard by the Board: 1) residential; 2) commercial; 3) industrial; and 4) farm. Each chapter contains a table of contents and an index, which is organized by subject matter and presented in alphabetical sequence.

The synopsis is provided to the public, free of charge. If a citizen would like a copy, they may obtain a copy on the web site or request a copy from the PTAB office. In addition, the Board publishes several brochures and forms available on its web site at [ptab.illinois.gov](http://ptab.illinois.gov). Citizens may also request brochures by calling the Springfield office.

The Property Tax Appeal Board is located at the Stratton Office Building, 401 South Spring Street, Room 402, Springfield, Illinois 62706 (Phone Number: 217.782.6076) and the Suburban North Regional Facility, 9511 West Harrison Street, Suite LL-54, Des Plaines, Illinois 60016 (Phone Number: 847.294.4121).

# Understanding the Report

---

The following information helps explain what is in the report ***Change in Assessed Value for Commercial and Industrial Appeals***. The information explains how to read the report, what time periods are covered and the data in each column.

The report is first sorted by county and then by year within the county.

It is important to note that all of the figures in the report pertain exclusively to closed commercial and industrial appeals. All information regarding residential and farm appeals is excluded.

Section 16-190(b) of the Property Tax Code (35 ILCS 200/16-190(b)) states that the reporting period cover the last five years.

**NOTE:** Some counties do not have figures for every year. This is because a county only appears on the report for years that an appeal has been filed and **closed** for **commercial and industrial** property. In addition, some rows may contain all zeroes. This happens when there is at least one **commercial and industrial** property in a county that was appealed, but none of the other reporting criteria were met.

Six columns make up the report. They include the county, year, requests for reduction equal to or greater than \$100,000, total cases decided, total change in assessed value based on stipulations, total change in assessed value based on PTAB decisions excluding stipulations and total change in assessed value.

## **Column 1 — County**

The first column lists the counties being reported.

## **Column 2 — Year**

The second column is the assessment year.

## **Column 3 — Requests for reduction $\geq$ \$100,000**

The third column lists the number of all commercial and industrial appeals on file with a requested reduction exceeding \$100,000. The reason the appeal was closed does not apply to this column. **Withdrawals and dismissals** are included in this column if the other criteria are met. This is the only column that has **withdrawals and dismissals** included.

## **Column 4 — Total appeals decided**

The fourth column reports the total number of all commercial and industrial appeals, including the cases where the difference in the assessed value requested by the appellant and the assessed value established by the county is less than \$100,000.

# **Understanding the Report**

---

## **Column 5 — Total change in assessed value based on stipulations**

The fifth column is the total cumulative change in the assessed values for commercial and industrial appeals, including those appeals where the requested change in the assessed value of the property is less than \$100,000, where there was a stipulation between the parties. Cases where a hearing was held or where a decision was written based solely on the evidence presented by all parties are not included in this column.

## **Column 6 — Total change in assessed value based on PTAB decisions, excluding stipulations**

The sixth column is the total cumulative change in the assessed values for commercial and industrial appeals, including appeals where the requested change in the assessed value of the property is less than \$100,000, and decisions were made with or without a hearing. Stipulations are not included in this column.

## **Column 7 — Total change in assessed value**

The last column is the total cumulative change in the assessed values for commercial and industrial appeals.
