

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Ziya Celik
DOCKET NO.: 03-25157.001-R-1
PARCEL NO.: 14-19-434-018-0000

The parties of record before the Property Tax Appeal Board are Ziya Celik, the appellant, by attorney Stephanie Park, Chicago, and the Cook County Board of Review.

The subject property consists of a four-year-old, two-story, single-family dwelling of masonry construction containing 2,582 square feet of living area and located in Lake View Township, Cook County. Features of the home include three and one-half bathrooms, a full-finished basement, air-conditioning, three fireplaces and a two-car detached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on eight properties suggested as comparable to the subject. The appellant also submitted a two-page brief, a photograph of the subject and a copy of the board of review's decision. Based on the appellant's documents, the eight suggested comparables consist of two-story, single-family dwellings of frame or masonry construction located within the subject's neighborhood. The improvements range in size from 2,364 to 2,856 square feet of living area and range in age from four to fifteen years. The comparables contain two and one-half or three and one-half bathrooms, a finished basement, air-conditioning and a two-car or three-car garage. Six comparables contain one or two fireplaces. The improvement assessments range from \$22.50 to \$26.50 per square foot of living area. Based on

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$ 4,608
IMPR.:	\$ 71,178
TOTAL:	\$ 75,786

Subject only to the State multiplier as applicable.

this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$75,786. The subject's improvement assessment is \$71,178 or \$27.57 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with two-story, single-family dwellings of frame or masonry construction with the same neighborhood code as the subject. The improvements range in size from 2,053 to 2,472 square feet of living area and range in age from one to fifteen years. The comparables contain two and one-half or three and one-half bathrooms, a finished or unfinished basement, air-conditioning, a fireplace and a two-car detached garage. The improvement assessments range from \$21.20 to \$29.89 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties submitted a total of twelve properties similar to the subject but with some variations in living area, age and/or type of construction. These twelve properties have improvement assessments ranging from \$22.50 to \$29.89 per square foot of living area. The subject's per square foot improvement assessment of \$27.57 falls within the range established by these properties. The Board finds of the twelve comparables offered by the parties, three vary from the subject in living area, four vary substantially in construction and three vary in age. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the evidence submitted by both parties does not support a change in the subject's current assessment.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the

subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board are subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
