

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Greg Samata
DOCKET NO.: 04-20938.001-R-1
PARCEL NO.: 01-10-201-007-0000

The parties of record before the Property Tax Appeal Board are Greg Samata, the appellant, by attorney Joanne P. Elliott of Elliott & Associates in Des Plaines, and the Cook County Board of Review.

The subject property consists of a four-year-old, two-story, single-family dwelling of frame construction containing 8,882 square feet of living area and located in Barrington Township, Cook County. Features of the home include four and one-half bathrooms, a full-unfinished basement, air-conditioning, two fireplaces and a three-car attached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on five properties suggested as comparable to the subject. The appellant also submitted a two-page brief, a photograph of the subject as well as a copy of the board of review's decision. Based on the appellant's documents, the five suggested comparables consist of two-story, single-family dwellings of frame or masonry construction with the same neighborhood code as the subject. The improvements range in size from 5,394 to 6,041 square feet of living area and range in age from four to nine years. The comparables contain from three and one-half to five full bathrooms, a finished or unfinished basement, air-conditioning, one or two fireplaces and a three-car or four-car garage. The improvement assessments range from \$10.91 to \$13.73 per square foot of living area. Based on the

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 17,772
IMPR.: \$ 121,950
TOTAL: \$ 139,722

evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$166,072. The subject's improvement assessment is \$148,300 or \$16.70 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with two-story, single-family dwellings of frame or masonry construction with the same neighborhood code as the subject. The improvements range in size from 2,459 to 3,510 square feet of living area and range in age from four to fifty-three years. The comparables contain two or three full bathrooms and a multi-car garage. Three comparables contain an unfinished basement, three comparables have air-conditioning and two comparables contain two fireplaces. The improvement assessments range from \$17.72 to \$19.80 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

The Board finds the appellant's comparables to be the most similar properties to the subject in the record. These five properties are the most similar to the subject in improvement size, amenities, age and location and have improvement assessments ranging from \$10.91 to \$13.73 per square foot of living area. The subject's per square foot improvement assessment of \$16.70 falls above the range established by these properties. The Board finds the board of review's comparables less similar to the subject in improvement size in that they are significantly smaller as compared to the subject. In addition, three of the board's comparables are significantly older than the subject. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is not supported by the most similar properties contained in the record.

Therefore, based on a review of the assessment comparables contained in the record, the Property Tax Appeal Board finds the appellant has supported the contention of unequal treatment in the assessment process and a reduction in the assessment of the subject property is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
