

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Mathew Raju  
DOCKET NO.: 04-22237.001-C-1  
PARCEL NO.: 10-20-100-026

The parties of record before the Property Tax Appeal Board (hereinafter PTAB) are Mathew Raju, the appellant, by attorney Arnold G. Siegel in Chicago and the Cook County Board of Review.

The subject property consists of a 13,544 square foot parcel of land improved with a 33-year old, one-story, masonry constructed, gasoline station with 600 square feet of building area. The appellant, via counsel, argued that the market value of the subject property is not accurately reflected in the property's assessed valuation as the basis of this appeal.

In support of the market value argument, the appellant submitted an appraisal of the subject property with an effective date of January 1, 2004. The appraiser used the sales comparison approach to value to arrive at market value of \$254,000. The appraiser determined that the highest and best use to be its current use. After making adjustments in the sales comparison approach to value, the appraisal opined a value for the subject of \$240,000.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 56,521  
IMPR.: \$ 34,679  
TOTAL: \$ 91,200

Subject only to the State multiplier as applicable.

PTAB/0634JBV

The board of review submitted "Board of Review-Notes on Appeal" wherein the subject's total assessment was \$159,287. The subject's assessment reflects a market value of \$419,176 using the level of assessment of 38% for Class 5A property as contained in the Cook County Real Property Assessment Classification Ordinance. The board also submitted seven comparables that range from \$106.92 to \$451.81 per square foot of building, including land, with one property's size and sale price per size unknown. No adjustments were made for locations, size, age or amenities. In addition, the board of review submitted a handwritten grid listing multiple properties and unexplained data. As a result of its analysis, the board requested confirmation of the subject's assessment.

After considering the evidence and reviewing the record, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

When overvaluation is claimed the appellant has the burden of proving the value of the property by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331Ill.App.3d 1038 (3<sup>rd</sup> Dist. 2002); Winnebago County Board of Review v. Property Tax Appeal Board, 313 Ill.App.3d 179 (2<sup>nd</sup> Dist. 2000). Proof of market value may consist of an appraisal, a recent arm's length sale of the subject property, recent sales of comparable properties, or recent construction costs of the subject property. 86 Ill.Admin.Code 1910.65(c). Having considered the evidence presented, the PTAB concludes that the evidence indicates a reduction is warranted.

In determining the fair market value of the subject property, the PTAB finds the best evidence to be the appellant's appraisal. The appellant's appraiser utilized the sales comparison approach to value in determining the subject's market value. The PTAB finds this appraisal to be persuasive for the appraiser: has experience in appraising; personally inspected the subject property and reviewed the property's history; estimated a highest and best use for the subject property; utilized appropriate market data in undertaking the sales comparison approach to value; and lastly, used similar properties in the sales comparison approach while providing sufficient detail regarding each sale as well as adjustments that were necessary. The PTAB gives little weight to the board of review's comparables as the information provided was raw sales data with no adjustments made.

Therefore, the PTAB finds that the subject property contained a market value of \$240,000 for the 2004 assessment year. Since the market value of the subject has been established, the Cook County Real Property Classification Ordinance level of assessments for

Docket No. 04-22237.001-C-1

Cook County Class 5A property of 38% will apply. In applying this level of assessment to the subject, the total assessed value is \$91,200 while the subject's current total assessed value is above this amount at \$159,287. Therefore, the PTAB finds that a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
