

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: James Degnan
DOCKET NO.: 04-23502.001-R-1
PARCEL NO.: 04-09-208-018-0000

The parties of record before the Property Tax Appeal Board are James Degnan, the appellant, by attorney Rusty A. Payton of the Law Offices of Rusty A. Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

The subject property consists of a 51-year old, one-story dwelling of frame construction containing 1,058 square feet of living area with a slab foundation, a fireplace, and a one and one-half car garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted a grid analysis detailing four suggested comparable properties. The appellant's map indicates two comparables are located one-quarter of a mile from the subject and one comparable is located three miles from the subject. One comparable is not shown on the map but the property index number indicates that it is located three miles from the subject. The comparables are one-story frame dwellings that are 53 to 101 years old. One comparable has a partial basement, one comparable has an unfinished basement, and two comparables have no basements. One comparable has central air conditioning. Their living areas are from 1,224 to 1,305 square feet in size, and have improvement assessments of \$16.51 to \$16.83 per square foot. The subject property has an improvement assessment of \$21.34 per square foot. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. In support of the subject's assessment, the board of review offered

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$8,316
IMPR.:	\$17,573
TOTAL:	\$25,889

the property characteristic sheets and a spreadsheet detailing three suggested comparable properties. The comparables are located in close proximity to the subject. The comparable properties consist of one-story frame dwellings that are 49 to 51 years old. One comparable has a full, finished basement; one comparable has a full, unfinished basement; and one comparable has a partial, unfinished basement. One comparable has central air conditioning and one comparable has a fireplace. Two comparables have one car garages. The dwellings contain 984 to 1,118 square feet of living area and have improvement assessments of \$21.37 to \$23.32 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is warranted. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

Both parties presented assessment data on a total of seven equity comparables. The appellant's comparable one and two were significantly older than the subject and differed from the subject in foundation. Comparable two and four were located three miles from the subject. The board of review's comparables differed from the subject in foundation. As a result, they received reduced weight in the Board's analysis. The appellant's comparable three was more similar to the subject in location, age, and physical characteristics. The comparable had an improvement assessment of \$16.61 per square foot. However, the subject's improvement assessment of \$21.34 per square foot falls above the level established by these comparables. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment is not supported by the most comparable properties contained in the record and a reduction in the subject's assessment is warranted.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject

dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
