

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Nick Gutu
DOCKET NO.: 04-24385.001-R-1
PARCEL NO.: 04-10-402-033-0000

The parties of record before the Property Tax Appeal Board (PTAB) are Nick Gutu, the appellant, by attorney Lisa A. Marino of Marino & Associates, P.C. of Chicago and the Cook County Board of Review (board).

The subject property consists of a 53-year-old, two-story single-family dwelling of masonry construction containing 4,513 square feet of living area and located in Northfield Township, Cook County. The residence contains three full bathrooms and two half baths, a full finished basement, air conditioning, fireplaces and a two-car garage.

The appellant, through counsel, submitted evidence before the PTAB claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered three suggested comparable properties located between one and three miles of the subject. These properties consist of two-story single-family dwellings of masonry or frame and masonry construction and range in age from four to 19 years. The comparables have three or four bathrooms and full basements. The homes are air-conditioned and one has a fireplace. Two sites have three-car garages. The comparables contain between 3,844 and 4,884 square feet of living area and have improvement assessments ranging from \$56,615 to \$77,093 or from \$14.73 to \$15.20 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$76,772, or \$17.01 per square foot of living area, was disclosed. In support of the subject's assessment, the board offered three suggested comparable properties located within a block of the subject. The comparables consist of two-story single-family dwellings of frame or stucco construction and range in age from six to 50 years. The comparables contain three and one half bathrooms and full basements; two have air conditioning, all have fireplaces and

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the COOK County Board of Review is warranted. The correct assessed valuation of the property is:

IMPR. \$76,772
TOTAL: \$93,428

three-car garages. The comparables range in size from 3,914 to 4,293 square feet of living area and have improvement assessments of between \$77,177 and 81,006 or from \$17.98 to \$19.99 per square foot of living area. Based on this evidence, the board requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the PTAB finds that it has jurisdiction over the parties and the subject matter of this appeal. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the PTAB finds the appellant has failed to overcome this burden.

The PTAB finds both parties submitted a total of six suggested properties as similar to the subject. The PTAB finds none of the six are sufficiently similar to the subject. Five differ substantially from the subject in age, two in living area, three in location and four in construction material. These six properties have improvement assessments ranging from \$14.73 to \$19.99 per square foot of living area. The subject, superior in size, has a per square foot improvement assessment of \$17.01 that is within this range of properties. After considering the considerable differences in both parties' suggested comparables when compared to the subject property, the PTAB finds the evidence submitted is insufficient to effect a change in the subject's assessment.

As a result of this analysis, the Property Tax Appeal Board finds the appellant failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
