

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Eileen O'Boyle
DOCKET NO.: 04-26513.001-R-1
PARCEL NO.: 17-07-328-017-0000

The parties of record before the Property Tax Appeal Board are Eileen O'Boyle, the appellant, by attorney Melissa K. Whitley of Marino & Associates in Chicago, and the Cook County Board of Review.

The subject property consists of a four-year-old, two-story, multi-family dwelling of masonry construction containing 3,724 square feet of living area and located in West Chicago Township, Cook County. Features of the building include two full bathrooms, two half-baths, a full-finished basement apartment and air-conditioning.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. Assessment data and limited descriptive information on a fifth comparable was also provided. However, the appellant failed to provide the age, exterior construction, and features of this property and therefore, it will not be used in this analysis. The appellant also submitted a one-page brief, photographs of the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellant's documents, the four suggested comparables consist of two-story, multi-family dwellings of masonry construction located within two blocks of the subject. The improvements range in size from 3,800 to 4,446 square feet of living area and range in age from 90 to 115 years. The comparables contain two or three full bathrooms and a full-unfinished basement. Two comparables contain a one-car detached garage. The improvement assessments range from \$4.27 to \$6.01 per square foot of living area. Based on the evidence submitted, the

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 1,728
IMPR.: \$ 31,776
TOTAL: \$ 33,504

Subject only to the State multiplier as applicable.

appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$33,504. The subject's improvement assessment is \$31,776 or \$8.53 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with two-story, multi-family dwellings of masonry construction with the same neighborhood code as the subject. The improvements range in size from 1,914 to 2,164 square feet of living area and range in age from 125 to 135 years. The comparables contain two full bathrooms and a partial or full-unfinished basement. The improvement assessments range from \$9.37 to \$10.32 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties submitted a total of eight properties similar to the subject in design, exterior construction and location but with many variations in size of living area and/or age. These eight properties have improvement assessments ranging from \$4.27 to \$10.32 per square foot of living area. The subject's per square foot improvement assessment of \$8.53 falls within the range established by these properties. The Board finds of the eight properties offered for comparison, five vary significantly from the subject in size of living area and all eight comparables are vastly inferior in age as compared to the subject. After considering adjustments for age and size, and the differences in both parties' suggested comparables when compared to the subject, the Board finds the evidence submitted by both parties does not support a change in the subject's current assessment.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
