

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Jeff Parkhill
DOCKET NO.: 04-26978.001-R-1
PARCEL NO.: 14-33-103-001-0000
TOWNSHIP: North Chicago

The parties of record before the Property Tax Appeal Board are Jeff Parkhill, the appellant, by attorney Joanne P. Elliott of Elliott & Associates in Des Plaines, and the Cook County Board of Review.

The subject property consists of a 115-year-old, two-story, multi-family dwelling of masonry construction containing 3,540 square feet of living area and located in North Chicago Township, Cook County. Features of the building include four full bathrooms, a full-unfinished basement, two fireplaces and a two and one-half car detached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on six properties suggested as comparable to the subject. The appellant also submitted a two-page brief, photographs of the subject and the suggested comparables as well as a copy of the board of review's decision. Based on the appellant's documents, the six suggested comparables consist of two-story or three-story, multi-family dwellings of frame or masonry construction with the same neighborhood code as the subject. The improvements range in size from 3,910 to 4,488 square feet of living area and range in age from 20 to 115 years. The comparables contain from three to five full bathrooms and an unfinished basement. One comparable has two fireplaces and one comparable contains a three-car garage. The improvement assessments range from \$8.53 to \$16.72 per square foot of living area. Based on the evidence submitted, the appellant requested a total assessment of \$77,454, with an improvement assessment of

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	24,000
IMPR.:	\$	76,626
TOTAL:	\$	100,626

\$53,454 or \$15.10 per square foot of living area and a land assessment to remain unchanged at \$24,000.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$100,626. The subject's improvement assessment is \$76,626 or \$21.65 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on two properties suggested as comparable to the subject. The suggested comparables are improved with two-story, 115-year-old, multi-family buildings of masonry construction with the same neighborhood code as the subject. One comparable is located on the same street as the subject. The improvements contain 3,352 and 3,591 square feet of living area. The comparables contain three or four full bathrooms, a full-finished basement apartment and a one-car or two-car detached garage. One comparable has three fireplaces. The improvement assessments are \$22.36 and \$21.64 per square foot of living area, respectively. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the appellant's comparables three and four and the board of review's comparables to be the most similar properties to the subject in the record. These four properties are similar overall to the subject in improvement size, amenities, age and location and have improvement assessments ranging from \$16.19 to \$22.36 per square foot of living area. The subject's per square foot improvement assessment of \$21.65 falls within the range established by these properties. The Board finds the appellant's remaining comparables less similar to the subject in improvement size, age, design and/or type of construction. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
