

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Tim Gerdeman
DOCKET NO.: 04-28358.001-R-1
PARCEL NO.: 14-32-416-055-0000
TOWNSHIP: North

The parties of record before the Property Tax Appeal Board (PTAB) are Tim Gerdeman, the appellant, by attorney Arnold G. Siegel of Chicago and the Cook County Board of Review (board).

The subject property consists of a one-year-old, two-story single-family dwelling of masonry construction containing 3,425 square feet of living area and located in North Township, Cook County. The residence contains three and one-half bathrooms, a full finished basement, air conditioning, a fireplace and a two-car garage.

The appellant, through counsel, submitted evidence before the PTAB claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered 11 suggested comparable properties located within a half mile of the subject. These properties consist of two or three-story single-family dwellings of masonry or frame and masonry construction and range in age from seven to 24 years. The comparables have two or three bathrooms with half-baths and four properties have full or partial basements. The homes have air-conditioning, fireplaces and all have one, two or three-car garages. The comparables contain between 3,032 and 3,553 square feet of living area and have improvement assessments ranging from \$65,156 to \$160,676 or from \$21.49 to \$46.60 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$171,368, or \$50.03 per square foot of living area, was disclosed. In support of the subject's assessment, the board offered three suggested comparable properties located within a quarter mile of the subject. The comparables consist of three-story single-family dwellings of masonry construction and range in age from one to five years. The comparables contain two or three bathrooms with some half-baths and with full basements, two finished; two have air conditioning; all with fireplaces and two have two-car

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the COOK County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 13,632
IMPR. \$161,368
TOTAL: \$175,000

Subject only to the State multiplier as applicable.

garages. The comparables range in size from 3,024 to 3,948 square feet of living area and have improvement assessments of between \$197,400 and \$226,261 or from \$50.00 to \$60.89 per square foot of living area. The board disclosed the subject was purchased in April 2003 for \$1,850,000. Based on this evidence, the board requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the PTAB finds that it has jurisdiction over the parties and the subject matter of this appeal. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the PTAB finds the appellant has overcome this burden.

The PTAB finds the appellant and the board submitted comparables that are similar to the subject but with some differences to be considered. The PTAB finds of the 14 suggested properties the appellant's comparables one (above all), four, six and 11 are more similar to the subject. These four properties have improvement assessments ranging from \$27.64 to \$46.60 per square foot of living area. The subject's per square foot improvement assessment of \$50.03 is above this range of properties. The PTAB gives less weight to the remaining comparables because they are less similar to the subject in living area or age. After considering the recent purchase price and the suggested comparables when compared to the subject property, the PTAB finds the evidence submitted is sufficient to effect a change in the subject's assessment.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
