

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Stuart Miller
DOCKET NO.: 05-24564.001-R-1
PARCEL NO.: 18-06-423-009-0000

The parties of record before the Property Tax Appeal Board are Stuart Miller, the appellant(s), by attorney Joseph G. Kusper, of Storino Ramello & Durkin of Rosemont; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 16,568
IMPR.: \$ 57,599
TOTAL: \$ 74,167

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 21,800 square foot parcel improved with a 124-year-old, two-story, single-family dwelling of frame construction containing 3,048 square feet of living area and located in Lyons Township, Cook County. Features of the residence include three full bathrooms, a full-unfinished basement, central air-conditioning, two fireplaces and a three-car attached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the

appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. Based on the appellant's documents, the three suggested comparables consist of two-story, single-family dwellings of masonry or stucco construction located within several blocks of the subject. The improvements range in size from 2,103 to 5,277 square feet of living area and range in age from seven to 91 years. The comparables contain from two to four and one-half bathrooms, a full-unfinished basement and a multi-car garage. Two comparables have central air-conditioning and multiple fireplaces. The improvement assessments range from \$15.25 to \$16.27 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$74,167. The subject's improvement assessment is \$57,599 or \$18.90 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on two properties suggested as comparable to the subject. The suggested comparables are improved with two-story, 127 or 133-year-old, single-family dwellings of frame construction located within the same survey block as the subject. The improvements contain 2,494 and 3,996 square feet of living area. The comparables contain two or three and one-half bathrooms and a full-unfinished basement. One comparable has central air-conditioning and one comparable has a two-car detached garage. The improvement assessments are \$19.57 and \$20.74 per square foot of living area, respectively. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds both parties submitted a total of five properties similar to the subject in location but with variations in size, age and/or type of construction. These five properties have improvement assessments ranging from \$15.25 to \$20.74 per square foot of living area. The subject's per square foot improvement assessment of \$18.90 falls within the range established by these properties. The Board finds of the five properties offered for comparison, four vary significantly from the subject in size, three vary in exterior construction and two differ greatly in age. The Board further finds the board's comparable two at \$20.74 per square foot of living area is the most similar property to the subject in the record. After considering adjustments for size, construction and age as well as the differences in both parties' suggested comparables when compared to the subject, the Board finds the evidence submitted by both parties does not support a change in the subject's current assessment.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
