

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Andrzej Kruszewski
DOCKET NO.: 05-24631.001-R-1.001-R-1
PARCEL NO.: 05-35-103-022-0000

The parties of record before the Property Tax Appeal Board are Andrzej Kruszewski, the appellant, by attorney Mitchell L. Klein of Schiller, Klein & McElroy, P.C., Chicago, and the Cook County Board of Review.

The subject property consists of a 10,065 square foot parcel improved with a 51-year-old, one-story style single-family dwelling of masonry construction. Containing 2,294 square feet of living area, the subject features two full baths, a partial unfinished basement, air conditioning, a fireplace and a two-car garage. The subject is located in New Trier Township, Cook County.

The appellant, through counsel, appeared before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant submitted a spreadsheet detailing three suggested comparable properties located in the same coded assessment neighborhood as the subject. These properties consist of one-story style single-family dwellings of masonry or frame and masonry construction from 51 to 55 years old. The comparables range in size from 2,038 to 2,387 square feet of living area featuring from one to three full baths; one also has a half-bath; two have partial basements, finished or unfinished; one is constructed on a slab foundation; two have air conditioning; all have single fireplaces and from one-car to two-car garages. The comparables have improvement assessments ranging from \$10.48 to \$17.93 per square foot of living area. A copy of the subject's 2005 board of review final decision was also included. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$49,829, or \$21.72 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	22,142
IMPR.:	\$	49,829
TOTAL:	\$	71,971

Subject only to the State multiplier as applicable.

offered property characteristic sheets and a spreadsheet detailing two suggested comparable properties located in the same coded assessment neighborhood as the subject. The comparables consist of 49 and 53 year old, one-story style single-family dwellings of frame and masonry construction. Both of the comparables contain two full baths; one has an additional half-bath; partial basements; air conditioning; one and two fireplaces; and one and one-half car or two-car garages. These properties contain 2,007 and 2,352 square feet of living area and have improvement assessments of \$23.29 and \$21.50 per square foot of living area, respectively. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has failed to overcome this burden.

The Property Tax Appeal Board finds that the parties submitted five properties as comparable to the subject. The Board accords the appellant's comparable one minimal weight as its features are inferior when compared to the subject. The Board accords the remaining improvements primary weight. However, the Board also finds that the board of review's comparables and the appellant's comparable three are inferior in construction type when compared to the subject. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment of \$21.72 is supported by the properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
