PARCEL NO.: 17-04-205-005
TOWNSHIP: North

The parties of record before the Property Tax Appeal Board (hereinafter PTAB) are Alan Artner, the appellant, by attorney Huan C. Tran with the law firm of Flanagan/Bilton in Chicago and the Cook County Board of Review.

The subject property consists of 2,650 parcel of land improved with a 115-year old, three-story, masonry, multi family dwelling. The improvement contains 4,783 square feet of living area, four baths, and four fireplaces. The appellant, via counsel, argued that the market value of the subject property is not accurately reflected in the property's assessed valuation as the basis of this appeal.

The PTAB finds that these appeals are within the same assessment triennial, involve common issues of law and fact and a consolidation of the appeals would not prejudice the rights of

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

the parties. Therefore, under the *Official Rules of the Property Tax Appeal Board, Section 1910.78*, the PTAB, without objection from the parties, consolidates the above appeals.

In support of the market value argument, the appellant submitted an appraisal of the subject property with an effective date of January 1, 2003. The appraiser used the three traditional approaches to value to arrive at market value. After making reconciling the three approaches to value, the appraisal opined a value for the subject of \$665,000.

The board of review submitted "Board of Review-Notes on Appeal" wherein the subject's total assessment was \$94,235. The subject's assessment reflects a market value of \$588,969 using the level of assessment of 16% for Class 2 property as contained in the Cook County Real Property Assessment Classification Ordinance. The board also submitted copies of the property characteristic printouts for the subject as well as a total of eight suggested comparables located within the subject's neighborhood. The improvements range in improvement assessments from \$16.32 to \$27.50 per square foot of living area. In addition, the board submitted copies of its file from the board of review's level appeal. As a result of its analysis, the board requested confirmation of the subject's assessment.

After considering the evidence and reviewing the record, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

When overvaluation is claimed the appellant has the burden of proving the value of the property by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331Ill.App.3d 1038 (3rd Dist. 2002); Winnebago County Board of Review v. Property Tax Appeal Board, 313 Ill.App.3d 179 (2nd Dist. 2000). Proof of market value may consist of an appraisal, a recent arm's length sale of the subject property, recent sales of comparable properties, or recent construction costs of the subject property. 86 Ill.Admin.Code 1910.65(c). Having considered the evidence presented, the PTAB concludes that the evidence indicates a reduction is warranted.

In determining the fair market value of the subject property, the PTAB finds the best evidence to be the appellant's appraisal. The appellant's appraiser utilized the three traditional approaches to value in determining the subject's market value. The PTAB finds this appraisal to be persuasive for the appraiser: has experience in appraising; personally inspected the subject

property and reviewed the property's history; utilized appropriate market data in undertaking the approaches to value; and lastly, used similar properties in the sales comparison approach while providing sufficient detail regarding each sale as well as adjustments that were necessary. The PTAB gives little weight to the board of review's comparables as the information provided only assessment data and no sales information.

Therefore, the PTAB finds that the subject property contained a market value of \$665,000 for the 2003 assessment triennial cycle. Since the market value of the subject has been established, the Department of Revenue three-year median level of assessments for Cook County Class 2 property for 2003 of 10.13% will apply. In applying this level of assessments to the subject, the total assessed value is above the subject's current total assessed value. Therefore, the PTAB finds that a reduction is warranted.
