

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Carla Frisch
DOCKET NO.: 05-26827.001-R-1
PARCEL NO.: 05-33-110-001-0000

The parties of record before the Property Tax Appeal Board are Carla Frisch, the appellant(s), by attorney Arnold G. Siegel of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$ 13,805
IMPR: \$ 76,863
TOTAL: \$ 90,668**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 8,850 square foot parcel of land improved with a four-year old, two-story, frame, single-family dwelling containing 2,795 square feet of living area, three and one-half baths, air conditioning, two fireplaces, and a full, finished basement. The appellant argued unequal treatment in the assessment process as the basis of the appeal.

In support of the equity argument, the appellant, via counsel, submitted information on a total of nine properties suggested as comparable and located within four blocks of the subject. The properties are described as two-story, frame or frame and masonry, single-family dwellings with between two and three and one-half baths, air conditioning, one or two fireplaces, and, for eight properties, a partial or full basement with two finished. The properties range: in age from four to 57 years; in size from 2,533 to 5,210 square feet of living area; and in improvement assessments from \$22.40 to \$24.00 per square foot of living area.

Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$76,863 or \$27.50 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on a total of four properties suggested as comparable and located within the subject's neighborhood. The properties are described as two-story, frame, single-family dwellings with between two and one-half and four and one-half baths, air conditioning, one or two fireplaces, and a full basement with three finished. The properties range: in age from four to seven years; in size from 2,770 to 3,353 square feet of living area; and in improvement assessment from \$28.28 to \$28.88 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In rebuttal, the appellant's attorney submitted a letter arguing that the location board of review's comparables are unknown, the size of these comparables are not similar to the subject and that the appellant presented nine comparables.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The parties submitted a total of 13 properties suggested as comparable to the subject. The PTAB finds the appellant's comparables #2 and #3 and the board of review's comparables #1 and #4 are the most similar to the subject in design, size, construction, and age. These properties are frame, two-story, single-family dwellings located in the subject's neighborhood. The properties range: in age from four to seven years; in size from 2,770 to 3,078 square feet of living area and in improvement assessments from \$23.58 to \$28.78 per square foot of living area. In comparison, the subject's improvement assessment of \$27.50 per square foot of living area is within the range of these comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment

is supported and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
