

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Timothy McCaffrey  
DOCKET NO.: 06-22224.001-R-1  
PARCEL NO.: 14-18-317-008-0000

The parties of record before the Property Tax Appeal Board are Timothy McCaffrey, the appellant, by attorney Mitchell L. Klein, of Schiller Klein PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$ 10,331  
IMPR.: \$ 78,060  
TOTAL: \$ 88,391**

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a two-story dwelling of frame construction containing 2,602 square feet of living area. The dwelling is two years old. Features include a full, unfinished basement and a one and one-half car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as two-story frame dwellings that are three years old. The comparable dwellings range in size from 2,530 to 2,844 square feet of living area. They have full basements, two of which are finished, each has central air conditioning, two have one or two fireplaces and two have a garage. The comparables have improvement assessments ranging from \$28.90 to \$30.72 per square foot of living area. The subject's improvement assessment is \$34.70 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story

frame or masonry dwellings that are one year old. The dwellings range in size from 2,373 to 2,814 square feet of living area. The comparables have full, finished basements, central air conditioning, one or two fireplaces and a two-car garage. These properties have improvement assessments ranging from \$28.48 to \$33.14 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In written rebuttal, the appellant noted differences between the board of review's comparables and the subject property with respect to exterior construction, number of fireplaces and garages. The appellant also noted that each of the comparables submitted by both parties was assessed lower than the subject.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has met this burden.

The Board finds the board of review's comparables three and four differed from the subject in exterior construction and comparable one was substantially smaller than the subject. As a result, these comparables received reduced weight in the Board's analysis. The appellant's comparables and the board of review's comparable two were similar to the subject in exterior construction, design, age, size and foundation. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments ranging from \$28.90 to \$31.18 per square foot of living area. The subject's improvement assessment of \$34.70 per square foot of living area is above the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is not equitable and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
