

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Addison Janssen, LLC  
DOCKET NO.: 06-22315.001-R-1  
PARCEL NO.: 14-20-101-025-0000

The parties of record before the Property Tax Appeal Board are Addison Janssen, LLC, the appellant, by attorney Mitchell L. Klein, of Schiller Klein PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 23,943  
**IMPR.:** \$ 87,489  
**TOTAL:** \$ 111,432

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property consists of a 5,518 square foot parcel improved with a 96-year-old, three-story, multi-family dwelling of masonry construction containing 4,929 square feet of living area and located in Lake View Township, Cook County. Features of the building include three full bathrooms, a full-finished basement apartment and central air-conditioning.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. Based on the appellant's documents, the three suggested comparables consist of three-story, multi-family dwellings of masonry construction with the same neighborhood code as the subject. The improvements range in size from 4,116 to 4,509 square feet of living area and range in age from 88 to 118 years old. The comparables contain three or four

full bathrooms and a full-finished or unfinished basement. One comparable has central air-conditioning and a two-car detached garage. The improvement assessments range from \$15.89 to \$20.00 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$146,479. The subject's improvement assessment is \$122,536 or \$24.86 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with three-story, multi-family dwellings of masonry construction with the same neighborhood code as the subject. The improvements range in size from 3,753 to 4,422 square feet of living area and range in age from 102 to 118 years old. The comparables contain three full bathrooms and a full-unfinished basement. One comparable has central air-conditioning as well as three fireplaces and one comparable has a two-car detached garage. The improvement assessments range from \$18.46 to \$19.03 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

In rebuttal, the appellant's attorney submitted a one-page letter disclosing that the seven suggested comparables provided by both parties have a lower improvement assessment per square foot than the subject.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

The Board finds both parties submitted seven properties as suggested comparables to the subject. The Board finds these properties similar to the subject in size, age, design, exterior construction, amenities and location. They have improvement assessments ranging from \$15.89 to \$20.00 per square foot of living area. The subject's per square foot improvement assessment of \$24.86 falls above the range established by these properties. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is not supported by similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
