

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Angelo Laskaris
DOCKET NO.: 06-24437.001-R-1
PARCEL NO.: 14-29-402-006-0000

The parties of record before the Property Tax Appeal Board (PTAB) are Angelo Laskaris, the appellant, by attorney Mary T. Nicolau of Smith, Davies and Nicolau of Chicago and the Cook County Board of Review (board).

The subject property consists of a 118-year-old, two-story, three-unit apartment building of frame construction containing 2,834 square feet of living area and located in Lakeview Township, Cook County. The apartment property includes three bathrooms and a basement apartment.

The appellant, through counsel, submitted evidence before the PTAB claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered three suggested comparable properties located within a quarter mile of the subject. These properties consist of two-story apartment buildings of frame construction and range in age from 117 to 118 years. The comparables include three bathrooms with some half baths and two with basement apartments. Two buildings are air conditioned and one property has a one-car garage. The comparables contain between 2,892 and 3,137 square feet of living area and have improvement assessments ranging from \$56,276 to \$58,887 or from \$17.99 to \$19.46 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$64,010, or \$22.59 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review offered four suggested comparable properties located within a quarter mile of the subject. The comparables consist of two-story, three or four-unit buildings of frame construction. The comparables range in age from 104 to 128 years old and two have full basements, one with an apartment. They have three or four bathrooms and one or two-car garages. The comparable properties range in size from 2,352 to 2,534 square feet of living area with

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the COOK County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$18,566
IMPR. \$59,434
TOTAL: \$78,000

improvement assessments ranging from \$59,603 to \$63,332 or from \$23.52 to \$26.93 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

The PTAB finds the parties submitted a total of seven suggested comparable properties that are somewhat similar to the subject especially the appellant's comparables one and two. These two properties have improvement assessments of \$19.42 to \$19.46 per square foot of living area. The subject's per square foot improvement assessment of \$22.59 is above this range of properties. The PTAB gives less weight to the remaining comparables because they are less similar to the subject in living area and thus have less influence. After considering the differences in both parties' suggested comparables when compared to the subject property, the PTAB finds the evidence is sufficient to effect a change in the subject's assessment.

As a result of this analysis, the PTAB finds the appellant did adequately demonstrate that the subject apartment building was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
