

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Vince & Nicole Pesch
DOCKET NO.: 06-26455.001-R-1
PARCEL NO.: 14-20-207-005-0000

The parties of record before the Property Tax Appeal Board (PTAB) are Vince & Nicole Pesch, the appellants, by attorneys Leslie Hedges and Joseph Huang with the Law Offices of Terrence Kennedy, Jr. in Chicago, and the Cook County Board of Review (board).

The subject property consists of a 108-year-old, three-story, multi-family dwelling of masonry construction containing 3,810 square feet of living area and located in Lake View Township, Cook County. Features of the building include three full bathrooms, a full-unfinished basement, air-conditioning and a three-car detached garage.

The appellants, through counsel, appeared before the PTAB arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellants submitted assessment data and descriptive information on nine properties suggested as comparable to the subject. The appellants also submitted a one-page brief, photographs and Cook County Assessor's Internet Database sheets for the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellants' documents, the nine suggested comparables consist of two-story or three-story, multi-family dwellings of frame, masonry or frame and masonry construction located within 1.07 miles of the subject. Five comparables are located on the same street and within two blocks of the subject. The improvements range in size from 3,320 to 4,848 square feet of living area and range in age from 96 to 122 years. The comparables contain three or four full bathrooms. Eight comparables contain a finished or unfinished basement and eight comparables have a two-car garage. The improvement assessments range from \$11.82 to \$16.52 per square foot of living area. The appellants' evidence disclosed that the subject sold in April 2003 for a price of \$875,000.

(Continued on Next Page)

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 16,420
IMPR.: \$ 73,488
TOTAL: \$ 89,908

Subject only to the State multiplier as applicable.

At hearing, the appellants' attorneys argued that the appellants' comparables are similar to the subject and should be considered as such by the PTAB. Based on the evidence submitted, the appellants requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$89,908. The subject's improvement assessment is \$73,488 or \$19.29 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with three-story, 96 or 98-year-old, multi-family dwellings of masonry construction located within one-quarter mile of the subject. The improvements range in size from 3,853 to 4,038 square feet of living area. The comparables contain three full bathrooms, a full-unfinished basement and a two-car or three-car garage. The improvement assessments range from \$19.12 to \$19.52 per square foot of living area. The board's evidence disclosed that the subject sold in April 2003 for a price of \$875,000.

At hearing, the board's representative indicated that the board of review would rest on the written evidence submissions. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellants' argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellants have not overcome this burden.

The PTAB finds the appellants' comparable one and the board of review's comparables to be the most similar properties to the subject in the record. These five properties are similar to the subject in improvement size, amenities, age and location and have improvement assessments ranging from \$16.52 to \$19.52 per square foot of living area. The subject's per square foot improvement assessment of \$19.29 falls within the range established by these properties. The appellant's remaining comparables are accorded less weight because they differ from the subject in improvement size, amenities and/or exterior construction. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the most similar properties contained in the record.

As a result of this analysis, the PTAB finds the appellants have failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
