

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jacques Brikha
DOCKET NO.: 06-27367.001-R-1
PARCEL NO.: 13-01-211-023-0000

The parties of record before the Property Tax Appeal Board are Jacques Brikha, the appellants, by attorney Michael Griffin in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 9,074
IMPR.: \$ 45,043
TOTAL: \$ 54,117

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a three-story multi-family dwelling of masonry construction containing 4,216 square feet of living area. The dwelling is 79 years old. Features include three apartment units, a full, unfinished basement, and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as two or three-story masonry multi-family dwellings that range in age from 50 to 79 years old. The appellant's comparables all have the same neighborhood code as the subject, and one is located on the same tax block as the subject. The comparable dwellings range in size from 3,960 to 4,995 square feet of living area. Each comparable has a garage. Two comparables have full, unfinished basements; one has a full, finished basement with an apartment; and one has a full, finished basement. The comparables have improvement assessments ranging from \$9.38 to \$10.20 per square foot of living area. The subject's improvement assessment is \$10.68 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of three-story masonry multi-family dwellings that range in age from 77 to 83 years old. The comparables all have the same neighborhood code as the subject. The dwellings range in size from 4,236 to 4,266 square feet of living area. Each comparable has a full, unfinished basement and a garage. These properties have improvement assessments ranging from \$11.57 to \$12.14 per square foot of living area. As part of its evidence, the board of review disclosed that the comparable numbered three sold for \$543,000 in October 2003. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of eight equity comparables. The comparables numbered two and four by the appellant differed in style from the subject, and the comparables numbered one and three by the appellant were much larger in size. As a result, the appellant's comparables received reduced weight in the Board's analysis. The Board finds the comparables submitted by the board of review were most similar to the subject in age, size, style, exterior construction, and foundation. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$11.57 to \$12.14 per square foot of living area. The subject's improvement assessment of \$10.68 per square foot of living area falls below the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
