

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Nick Christy  
DOCKET NO.: 06-27735.001-R-1  
PARCEL NO.: 26-08-330-043-0000

The parties of record before the Property Tax Appeal Board are Nick Christy, the appellant, by attorney Brian P. Liston of Law Offices of Liston & Tsantilis, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$3,660  
IMPR.: \$31,910  
TOTAL: \$35,570**

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a two-story building of masonry construction containing 7,236 square feet of living area. The building is 43 years old. Features of the building include a partial unfinished basement and central air conditioning. The property is classified as a Class 2-12 mixed use commercial/residential building under the Cook County Real Property Assessment Classification Ordinance.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as two-story masonry buildings that range in age from 24 to 115 years old. The comparable buildings range in size from 5,001 to 8,262 square feet of living area. Two comparables have central air conditioning. The appellant did not include any data concerning garages or basement area for the comparables. The comparables have improvement assessments ranging from \$3.31 to \$5.10 per square foot of living area. The subject's improvement assessment is \$7.74 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed.

The board of review presented descriptions and assessment information on one comparable property consisting of a two-story masonry building that is 21 years old. The building has 3,239 square feet of living area. This property has an improvement assessment of \$4.27 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds a reduction is warranted.

The Board finds comparables #1, #3 and #4 submitted by the appellant and comparable #1 submitted by the board of review were similar to the subject in location and exterior construction. These comparables had improvement assessments that ranged from \$3.31 to \$5.10 per square foot of living area. The subject's improvement assessment of \$7.74 per square foot of living area is above the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is not equitable and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
