

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Michael Klein
DOCKET NO.: 06-29489.001-R-1
PARCEL NO.: 14-33-421-056-0000

The parties of record before the Property Tax Appeal Board are Michael Klein, the appellant(s), by attorney Lauren B. Cooper, of Worssek & Vihon in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 21,991
IMPR.: \$ 62,009
TOTAL: \$ 84,000

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 2,656 square foot parcel improved with a seven-year-old, two-story, single-family dwelling of frame and masonry construction containing 2,160 square feet of living area and located in North Chicago Township, Cook County. Features of the residence include two and one-half bathrooms, a full-unfinished basement, central air-conditioning, a fireplace and a two-car detached garage.

The appellant, through counsel, appeared before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of the equity argument, the appellant submitted assessment data and descriptive information on thirteen properties suggested as comparable to the subject. Based on the appellant's documents, the thirteen suggested comparables consist of two-story, single-family dwellings of frame, masonry or frame and masonry construction located within the subject's neighborhood. The improvements range in size from 2,070 to 2,560 square feet of living area and range in age from three to nineteen years old.

The comparables contain from one and one-half to three and one-half bathrooms and a two-car garage. Eleven comparables have a finished or unfinished basement as well as central air-conditioning and ten comparables have a fireplace. The improvement assessments range from \$21.63 to \$38.14 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

At hearing, the appellant's attorney argued that the appellant's comparables are located within one-half mile of the subject and similar to the subject in many respects.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$137,099. The subject's improvement assessment is \$115,108 or \$53.29 per square foot of living area. In addition, the board of review provided a copy of the subject's property characteristic printout as well as copies of documentation from the board of review level complaint file.

At hearing, the board's representative stated that the board of review would rest on the written evidence submissions. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

The Board finds that the only evidence in the record addressing the equity of the subject's improvement assessment is the comparable properties submitted by the appellant. The Board further finds the appellant's comparables to be similar overall to the subject in improvement size, amenities, design and age. In addition, they are located within one-half mile of the subject and have improvement assessments ranging from \$21.63 to \$38.14 per square foot of living area. The subject's per square foot improvement assessment of \$53.29 falls well above the range established by these properties. After considering adjustments and the differences in the appellant's comparables when compared to the subject, the Board finds the subject's improvement assessment is inequitable and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
