

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Judi Newbold
DOCKET NO.: 06-29976.001-R-1
PARCEL NO.: 13-24-114-016-0000

The parties of record before the Property Tax Appeal Board are Judi Newbold, the appellant, by attorney Lisa A. Marino of Marino & Assoc., PC of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$ 8,100
IMPR.: \$ 22,798
TOTAL: \$ 30,898**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a one-story dwelling of masonry construction containing 1,122 square feet of living area. The dwelling is 82 years old. Features of the home include a full, unfinished basement and a one and one-half car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as one or one and one-half story frame dwellings that range in age from 83 to 113 years old. One of the appellant's comparables is located on the same tax block as the subject, and the others are located between one and five blocks from the subject property. The comparable dwellings range in size from 1,483 to 1,713 square feet of living area. Two comparables have full, unfinished basements, and two have slab foundations. Each dwelling has a garage, either one-car or two-car. The comparables have improvement assessments ranging from \$16.55 to \$17.99 per square foot of living area. The subject's improvement assessment is \$20.32 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed.

The board of review presented descriptions and assessment information on four comparable properties consisting of one-story masonry dwellings that range in age from 82 to 84 years old. Each comparable was located on the same tax block as the subject property. The dwellings range in size from 1,032 to 1,112 square feet of living area. Three comparables have full, unfinished basements, and one has a full, finished basement. Each dwelling has a two-car garage; one has central air conditioning; and another has a fireplace. These properties have improvement assessments ranging from \$24.41 to \$26.17 per square foot of living area. The board of review's evidence also indicated that comparable numbered two sold for \$415,000 in October 2005. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of eight equity comparables. The appellant's comparables were somewhat larger than the subject and they also differed in exterior construction; comparables two and three differed in style; and comparables one through three were older than the subject. As a result, the appellant's comparables received reduced weight in the Board's analysis. The Board finds the comparables submitted by the board of review were most similar to the subject in location, size, age, exterior construction, and style. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$24.41 to \$26.17 per square foot of living area. The subject's improvement assessment of \$20.32 per square foot of living area falls below the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
