

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Andrew Roman Jr.
DOCKET NO.: 06-30826.001-R-1
PARCEL NO.: 17-06-200-022-0000

The parties of record before the Property Tax Appeal Board are Andrew Roman Jr., the appellant(s), by attorney Glenn S. Guttman, of Rieff Schramm & Kanter in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 11,328
IMPR.: \$ 76,587
TOTAL: \$ 87,915

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 113-year-old, three-story, mixed-use building of masonry construction containing 5,175 square feet of building area and located in West Township, Cook County. Features of the building include two full bathrooms, three half-baths, a full-finished basement and central air-conditioning.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on eight properties suggested as comparable to the subject. Based on the appellant's documents, the eight suggested comparables consist of two-story or three-story, mixed-use buildings of frame or masonry construction with the same neighborhood code as the subject. Seven of the comparables are located on the same street and within three blocks of the subject. The improvements range in size from 4,627

to 6,048 square feet of building area and range in age from 94 to 115 years old. The comparables contain two and one-half, three or three and one-half bathrooms and a partial or full-unfinished basement. One comparable contains central air-conditioning and one comparable has a two-car garage. The improvement assessments range from \$11.69 to \$13.64 per square foot of building area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$87,915. The subject's improvement assessment is \$76,587 or \$14.80 per square foot of building area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with three-story, mixed-use buildings of masonry construction with the same neighborhood code as the subject. One of the comparables is located on the same street and block as the subject. The improvements range in size from 4,338 to 5,676 square feet of building area and range in age from 97 to 118 years old. The comparables contain from two to six full bathrooms and a partial or full-unfinished basement. Two comparables contain central air-conditioning. The improvement assessments range from \$15.15 to \$16.72 per square foot of building area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the appellant's comparables five and six and the board of review's comparables one and four to be the most similar properties to the subject in the record. These four properties are similar to the subject in improvement size, design, amenities, age and location and have improvement assessments ranging from \$12.46 to \$15.77 per square foot of building area. The subject's per square foot improvement assessment of \$14.80 falls within the range established by these properties. The Board finds the remaining comparables less similar to the subject in improvement size, exterior construction and/or design and accorded less weight. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
