

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Dan Callahan
DOCKET NO.: 07-22266.001-R-1
PARCEL NO.: 05-27-308-005-0000

The parties of record before the Property Tax Appeal Board are Dan Callahan, the appellant(s), by attorney James E. Doherty, of Thomas M. Tully & Associates in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$26,048
IMPR: \$86,620
TOTAL: \$112,668

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 8,800 square foot parcel of land improved with a 94 year old, two-story, stucco, single-family dwelling, with 2,816 square feet of living area, two and a half baths, a fireplace and a full unfinished basement. The appellant argued unequal treatment in the assessment process as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptions and assessment information on a total of seven properties suggested as comparable and located within the subject's neighborhood. The properties are described as two-story, stucco, frame, or frame and masonry, single-family dwellings with one and a half to two and a half baths, air conditioning for four properties, one or two fireplaces for five properties, and the following basement features: two full unfinished, four partial unfinished, and one partial finished. The properties are 87 to 114 years old with 2,409 to 2,766 square feet of living area and have improvement assessments from \$21.46 to \$27.91 per square foot of living area. Based on this evidence,

the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$86,620 or \$30.76 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on four properties suggested as comparable and located within a quarter mile of the subject. The properties are described as two-story, stucco, single-family dwellings with two and a half to three and a half baths, partial or full basements, air conditioning for two properties, and one or two fireplaces. The properties are 81 to 96 years old with 2,687 to 3,012 square feet of living area and have improvement assessments of \$31.80 to \$32.96 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has not met this burden.

The parties presented a total of eleven properties suggested as comparable to the subject. The PTAB finds the appellant's comparables #2, #3, and #7 and the board of review's comparables #1 and #2 most similar to the subject in size, design, and age. The properties are described as two-story, stucco, frame or frame and masonry, single-family dwellings. The properties are 81 to 114 years old with 2,412 to 3,012 square feet of living area and have improvement assessments from \$26.61 to \$32.93 per square foot of living area. In comparison, the subject's improvement assessment of \$30.76 per square foot of living area is within the range of these comparables. Therefore, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported and a reduction in the improvement assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
