

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Martin Lapidus
DOCKET NO.: 07-22270.001-R-1
PARCEL NO.: 04-01-400-051-0000

The parties of record before the Property Tax Appeal Board are Martin Lapidus, the appellant(s), by attorney James E. Doherty, of Thomas M. Tully & Associates in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 22,428
IMPR.: \$ 71,116
TOTAL: \$ 93,544

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 13,040 square foot parcel of land improved with an 42-year old, one and one-half story, frame and masonry, single-family dwelling containing 3,084 square feet of living area, one and two-half baths, one fireplace, air conditioning and a partial, unfinished basement. The appellant argued, via counsel, unequal treatment in the assessment process as the basis of the appeal.

In support of the equity argument, the appellant, via counsel, submitted information on a total of four properties suggested as comparable. The properties are described as one or one and one-half story, frame or masonry, single-family dwellings. Features include between one and three and one-half baths, one or two fireplaces, air conditioning, and, for three properties, a partial or full basement with one finished. The properties range: in age from 51 to 55 years; in size from 1,943 to 3,273 square feet of living area; and have improvement assessments from \$19.07 to \$20.20 per square foot of living area. Based on this evidence,

the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$71,116 or \$23.06 per square foot of living area was disclosed. In support of the subject's assessment, the board of review submitted descriptions and assessment information on four properties suggested as comparable. The properties are described as one or one and one-half story, frame or frame and masonry, single-family dwellings. Features include two and one-half or three and one-half baths, one or two fireplaces for three properties, air conditioning for two properties, and, for three properties, a partial or full basement with two finished. The properties range: in age from 44 to 61 years; in size from 2,131 to 3,395 square feet of living area; and in improvement assessments from \$24.78 to \$27.67 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has not met this burden.

The parties presented a total of eight properties suggested as comparable. The PTAB finds the board of review's comparables #1, #3 and #4 most similar to the subject in location, size, design, construction and age. The properties range: in age from 47 to 61 years; in size from 2,968 to 3,395 square feet of living area; and in improvement assessments from \$24.78 to \$27.67 per square foot of living area. In comparison, the subject's improvement assessment of \$23.06 per square foot of living area is below the range of these comparables. Therefore, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported and a reduction in the improvement assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
