

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Gary Richert
DOCKET NO.: 07-22982.001-R-1
PARCEL NO.: 18-07-116-023-0000

The parties of record before the Property Tax Appeal Board are Gary Richert, the appellant(s), by attorney Joseph G. Kusper, of Storino Ramello & Durkin of Rosemont; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 23,412
IMPR.: \$ 96,000
TOTAL: \$ 119,412

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of an 18,291 square foot parcel improved with a 22-year-old, two-story style single-family dwelling of masonry construction. Containing 4,600 square feet of living area, the subject features five baths, a partial unfinished basement, central air conditioning, two fireplaces, and a three-car garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered a spreadsheet detailing three suggested comparable properties located in the same coded assessment neighborhood as the subject. These properties consist of two-story style single-family dwellings of masonry, stucco or frame and masonry construction ranging from seven to forty-nine years old. The comparables range in size from 4,083 to 5,752

square feet of living area with amenities such as three or four full baths, half-baths, central air conditioning, one or three fireplaces, and two or three car garages; and two have full basements. The comparables have improvement assessments ranging from \$13.74 to \$16.93 per square foot of living area. A copy of the subject's 2007 board of review final decision was also included. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$98,178, or \$21.34 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing four suggested comparable properties located in the same coded assessment neighborhood as the subject. The comparables consist of two-story style single-family dwellings of masonry or frame and masonry construction ranging in age from 36 to 47 years old. These properties range in size from 3,903 to 5,818 square feet of living area and have amenities such as two or three full baths, full or partial finished or unfinished basements, central air conditioning, two or three fireplaces and multi-car garage; two also have additional half baths. The comparables have improvement assessments ranging from \$21.13 to \$22.57 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

The Property Tax Appeal Board finds that the board of review's comparable numbered one and the appellant's comparables number two and three are the most similar to the subject in size in the record. However, the Board finds that two are superior in age; one is inferior in age; two are substantially superior in size; and one is inferior in size when compared to the subject. Further, the Board finds that these properties have amenities commensurate with the subject's amenities. The Board finds that the remaining comparables overall differ from the subject in size, construction type, amenities and/or age. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board

finds the subject's per square foot improvement assessment of \$21.34 is not supported by the properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.
