

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Catherine Balentine
DOCKET NO.: 07-23550.001-R-1
PARCEL NO.: 09-35-221-001-0000

The parties of record before the Property Tax Appeal Board are Catherine Balentine, the appellant(s), by attorney James E. Doherty, of Thomas M. Tully & Associates in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$14,798
IMPR.: \$59,195
TOTAL: \$73,993

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of an 11,561 square foot parcel of land improved with an 85-year old, two-story, frame and masonry, single-family dwelling containing 2,325 square feet of living area, two baths, one fireplace, and a partial, unfinished basement. The appellant argued unequal treatment in the assessment process as the basis of the appeal.

In support of the equity argument, the appellant, via counsel, submitted information on a total of five properties suggested as comparable. The properties are described as two-story, masonry, frame or stucco, single-family dwellings. Features include two or three baths, a fireplace for four properties, air conditioning for two properties, and, for four properties, partial or full, unfinished basements. The properties range: in age from 77 to 124 years; in size from 2,716 to 2,906 square feet of living area; and in improvement assessments from \$21.04 to \$22.72 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$59,195 or \$25.46 per square foot of living area was disclosed. In support of the subject's assessment, the board of review submitted descriptions and assessment information on four properties suggested as comparable. The properties are described as two-story, frame and masonry, single-family dwellings. Features include two and one-half or two and two-half baths, air conditioning, one or two fireplaces, and full basements with three finished. The properties range: in age from 68 to 81 years; in size from 2,497 to 2,574 square feet of living area; and in improvement assessments from \$25.38 to \$27.98 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). After an analysis of the assessment data, the PTAB finds the appellant has not met this burden.

The parties presented a total of nine properties suggested as comparable. The PTAB finds the board of review's comparables most similar to the subject in size, design, construction and/or age. The properties range: in age from 68 to 81 years; in size from 2,497 to 2,574 square feet of living area; and in improvement assessments from \$25.38 to \$27.98 per square foot of living area. In comparison, the subject's improvement assessment of \$25.46 per square foot of living area is within the range of these comparables. Therefore, after considering adjustments and the differences in the comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported and a reduction in the improvement assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
