

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Woody Slaymaker
DOCKET NO.: 07-24112.001-R-1
PARCEL NO.: 14-20-427-010-0000

The parties of record before the Property Tax Appeal Board are Woody Slaymaker, the appellant(s), by attorney Stephanie Park, of Park & Longstreet, P.C. in Rolling Meadows; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$38,449
IMPR.: \$89,366
TOTAL: \$127,815

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of an 8,861 square foot parcel of land improved with a 118-year old, two-story, masonry, single-family dwelling containing 3,210 square feet of living area, two and two-half baths, air conditioning, two fireplaces, and a full, finished basement. The appellant, via counsel, argued there was unequal treatment in the assessment process of the improvement as the basis of this appeal.

In support of the equity argument, the appellant submitted information on a total of 12 properties suggested as comparable. The properties are described as two-story, masonry, stucco or frame, single-family dwellings. Features include between one and four baths, air conditioning for six properties, one or two fireplaces for seven properties, and, for 11 properties, full basements with five finished. The properties range: in age from 93 to 123 years; in size from 2,837 to 3,765 square feet of living area; and in improvement assessments from \$22.36 to \$26.28 per square foot of living area. Based on this evidence, the

appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$89,366 or \$27.84 per square foot of living area was disclosed. In support of the subject's assessment, the board of review submitted descriptions and assessment information on four properties suggested as comparable. The properties are described as two-story, masonry, single-family dwellings. Features include three or three and one-half baths, air conditioning, one or three fireplaces for two properties, and, for all properties, full finished basements. The properties range: in age from 94 to 113 years; in size from 2,588 to 3,675 square feet of living area; and in improvement assessments from \$28.60 to \$30.56 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

At hearing, the appellant's attorney argued that the appellant's suggested comparables were more similar to the subject than the board of review's suggested comparables.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has not met this burden.

The parties presented a total of 16 properties suggested as comparable. The PTAB finds the appellant's comparables #6, #7, and #10 and the board of review's comparable #4 most similar to the subject in size, design, construction, and/or age. The properties range: in age from 101 to 113 years; in size from 2,976 to 3,540 square feet of living area; and in improvement assessments from \$24.61 to \$29.06 per square foot of living area. In comparison, the subject's improvement assessment of \$27.84 per square foot of living area is within the range of these comparables. Therefore, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported and a reduction in the improvement assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
