

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Rocco Martino
DOCKET NO.: 07-25153.001-R-1
PARCEL NO.: 18-18-302-039-0000

The parties of record before the Property Tax Appeal Board are Rocco Martino, the appellant(s), by attorney Joseph G. Kusper, of Storino Ramello & Durkin of Rosemont; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 19,404
IMPR.: \$ 73,744
TOTAL: \$ 93,148

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 15-year-old, two-story style single-family dwelling of masonry construction containing 4,310 square feet of living area. Amenities include three full baths, two half baths, a full unfinished basement, central air conditioning, four fireplaces and a three car garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered a spreadsheet detailing three suggested comparable properties located in the same coded assessment neighborhood as the subject. These properties consist of one or two story style single-family dwellings of stucco or frame and masonry construction ranging from eight to forty-six years old. The comparables range in size from 4,127 to 4,836 square feet of living area with amenities such as from two to

five full baths, half baths, full or partial basements, central air conditioning, fireplaces and garages. These properties have improvement assessments ranging from \$9.81 to \$13.90 per square foot of living area. A copy of the subject's 2005 board of review final decision was also included. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$73,744, or \$17.11 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing four suggested comparable properties located in the same coded assessment neighborhood as the subject. The comparables consist of two-story style single-family dwellings of masonry construction ranging from 13 to 19 years old. These properties range in size from 4,322 to 4,700 square feet of living area and feature three or four full baths, full or partial basements, central air conditioning, fireplaces and three car garages; three also have additional half baths. The comparables have improvement assessments ranging from \$17.72 to \$18.47 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has failed to overcome this burden.

The Board finds that the parties submitted seven properties as comparable to the subject. The Board finds that the board of review's comparables are the most similar to the subject in the record. These improvements are similar in construction type, age, amenities and size when compared to the subject. The Board accords substantial and primary weight to these properties. The Board finds that the appellant's comparables are overall less similar to the subject in construction type, and/or age and amenities. The Board accords the appellant's properties diminished weight. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square

foot improvement assessment of \$17.11 is supported by the properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and no reduction is warranted.
