

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jay Hausler
DOCKET NO.: 07-28949.001-R-1
PARCEL NO.: 14-33-329-005-0000

The parties of record before the Property Tax Appeal Board are Jay Hausler, the appellant, by attorney Arnold G. Siegel in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$ 20,624
IMPR.: \$ 68,026
TOTAL: \$ 88,650**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a three-story multi-family dwelling of frame and masonry construction containing 2,790 square feet of living area. The dwelling is 124 years old, and it has four apartment units, a slab foundation, and a fireplace.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as two or three-story frame or masonry multi-family dwellings that range in age from 118 to 138 years old. One of the appellant's comparables is located on the same block as the subject, and the others are located within three blocks of the subject. The comparable dwellings range in size from 2,389 to 3,194 square feet of living area, and they have either three or five apartment units. Two comparables have full, unfinished basements, and one has a slab foundation. One comparable has a garage. The comparables have improvement assessments ranging from \$18.22 to \$18.90 per square foot of living area. The subject's improvement assessment is \$24.38 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two or three-story frame and masonry or masonry multi-family dwellings that range in age from 118 to 138 years old. The comparables all have the same neighborhood code as the subject, and two are located one-quarter mile from the subject. The dwellings range in size from 2,856 to 3,242 square feet of living area, and they have three or five apartment units. Three comparables have unfinished basements, either full or partial, and one has a slab foundation. One dwelling has central air conditioning, and two comparables have a garage. These properties have improvement assessments ranging from \$24.77 to \$29.31 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

All of the seven comparables submitted by both parties were two or three-story apartment buildings. However, the appellant's comparables numbered one and two differed from the subject in size and received reduced weight in the Board's analysis. The comparable numbered three by the board of review also differed from the subject in size and likewise received reduced weight. The Board finds the remaining comparables were most similar to the subject in size, and they were also very similar in other respects as well. Due to their similarities to the subject, these three comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$18.90 to \$29.31 per square foot of living area. The subject's improvement assessment of \$24.38 per square foot of living area falls within the range established by these comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
