ANALYSIS

The subject property consists of six parcels of land totaling 20,156 square feet and improved with a 56-year old, one-story, commercial building containing approximately 12,012 square feet of building area. The appellant argued that the market value of the subject property was not accurately reflected in its assessed value as the basis of this appeal.

In support of the market value argument, the appellant submitted a summary appraisal report of the subject property with an

effective date of January 1, 2008. The appraiser estimated a market value for the subject of \$325,000 based upon the income and sales comparison approaches to value. The appraisal indicated the subject was inspected. Based upon this evidence, the appellant requests a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's total assessment of \$172,677 was disclosed. This assessment reflects a fair market value of \$454,413 when the Cook County Real Property Assessment Classification Ordinance level of assessments of 38% for Class 5a properties is applied.

In support of the subject's assessment, the board of review presented descriptions and sales information on a total of 16 properties. The properties sold for prices ranging from \$360,000 to \$1,850,000 or \$39.65 to \$141.94 per square foot of building area, including land.

After considering the arguments and reviewing the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

When overvaluation is claimed the appellant has the burden of proving the value of the property by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331Ill.App.3d 1038 (3rd Dist. 2002); Winnebago County Board of Review v. Property Tax Appeal Board, 313 Ill.App.3d 179 (2nd Dist. 2000). Proof of market value may consist of an appraisal, a recent arm's length sale of the subject property, recent sales of comparable properties, or recent construction costs of the subject property. 86 Ill.Admin.Code 1910.65(c). Having considered the evidence presented, the Board concludes that the appellant has met this burden and that a reduction is warranted.

In determining the fair market value of the subject property, the Board thoroughly considered the parties' evidence and finds the best evidence to be the appellant's appraisal. The Board finds this appraisal to be persuasive for the appraiser inspected the subject property and developed the income and sales comparison approaches to value in estimating the subject's market value. Moreover, market data was used to obtain improved sale comparables while providing sufficient detail regarding each sale as well as appropriate adjustments, where necessary.

Therefore, the Board finds that the subject property contained a market value of \$325,000 for tax year 2008. Since the market value of the subject has been established, the Cook County Ordinance level of assessment of 38% for class 5a, commercial property will apply and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
