

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ted Nordal  
DOCKET NO.: 08-23231.001-R-1  
PARCEL NO.: 05-29-316-057-0000

The parties of record before the Property Tax Appeal Board are Ted Nordal, the appellant, by attorney James E. Doherty, of Thomas M. Tully & Associates of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$27,505  
**IMPR:** \$97,332  
**TOTAL:** \$124,837

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a two-story dwelling of frame and masonry construction containing 3,354 square feet of living area. The dwelling is 65 years old. Features of the home include a full basement finished with a recreation room, central air conditioning, a fireplace and a 2-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on seven comparable properties located in neighborhood #132. The comparables consist of two-story frame, masonry or frame and masonry dwellings that range in age from 66 to 81 years old. The comparable dwellings range in size from 2,756 to 3,412 square feet of living area. Each comparable has a 1-car to 2-car garage. Six comparables have one or two fireplaces. Five comparables have central air conditioning. Four comparables have full basements of which one is finished with a recreation room and three comparables have partial basements finished with recreation rooms. The comparables have improvement assessments ranging from \$25.03 to \$27.14 per square foot of living area.

The subject's improvement assessment is \$29.02 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$124,837 was disclosed. The board of review presented descriptions and assessment information on four comparable properties located in the same neighborhood code as the subject. One comparable was located on the same street and within the same block of the subject. The comparables consist of two-story masonry or frame and masonry dwellings that range in age from 66 to 78 years old. The dwellings range in size from 2,473 to 3,447 square feet of living area. Each comparable has central air conditioning, two fireplaces and a 1.5-car or 2-car garage. Three comparables have full basements finished with recreation rooms and one comparable has a partial unfinished basement. Comparable #1 is described as being of deluxe, renovated construction quality. These properties have improvement assessments ranging from \$28.38 to \$31.09 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds a reduction is not warranted.

The Board finds comparables #1, #3, #4 and #7 submitted by the appellant and comparables #2 and #4 submitted by the board of review dissimilar in size when compared to the subject and less weight was given to these properties. The Board finds comparables #2, #5 and #6 submitted by the appellant and comparables #1 and #3 submitted by the board of review were most similar to the subject in size, features and age. The comparables had improvement assessments that ranged from \$25.46 to \$30.75 per square foot of living area. The subject's improvement assessment of \$29.02 per square foot of living area falls within the range established by the similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
