

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Kevin M. Noonan
DOCKET NO.: 08-24224.001-R-1
PARCEL NO.: 17-04-122-044-0000

The parties of record before the Property Tax Appeal Board are Kevin M. Noonan, the appellant(s), by attorney Patrick J. Cullerton, of Thompson Coburn LLP in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$16,396
IMPR.: \$97,656
TOTAL: \$114,052

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 2,928 square foot parcel of land improved with a seven-year old, three-story, masonry, single-family dwelling containing 3,756 square feet of building area, three and one-half baths, air conditioning, four fireplaces, and a full, finished basement. The appellant argued unequal treatment in the assessment process as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptions and assessment information on a total of five properties suggested as comparable and located within the subject's neighborhood. The properties are described as two or three-story, masonry of frame, single-family dwellings with between two and one-half and four and one-half baths, air conditioning, one to three fireplaces for four properties, and, for four properties, a partial or full basement with two finished. The properties range: in age from 10 to 19 years; in size from 2,560 to 3,795 square feet of building area; and in improvement assessments from \$21.41 to \$22.83 per square foot of

living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$97,656 or \$26.00 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on four properties suggested as comparable and located on the subject's block. The properties are described as three-story, masonry, single-family dwellings with between three and one-half and five and one-half baths, air conditioning, one to three fireplaces, and, a full finished basement. The properties range: in age from one to seven years; in size from 3,538 to 3,788 square feet of building area; and in improvement assessments from \$27.64 to \$34.57 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

At hearing, the appellant's attorney submitted Appellant's Hearing Exhibit #3c, Cook County Assessor's printouts for the subject and the appellant's suggested comparables.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has not met this burden.

The parties presented a total of nine properties suggested as comparable to the subject. The PTAB finds the appellant's comparable #1 and the board of review's comparables #1 and #2 most similar to the subject in design, age, size, and construction. The properties are described as three-story, masonry, single-family dwellings. The properties range: in age from one to 15 years; in size from 3,740 to 3,795 square feet of living area; and in improvement assessments from \$21.41 to \$31.48 per square foot of living area. In comparison, the subject's improvement assessment of \$26.00 per square foot of living area is within the range of these comparables. Therefore, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported and a reduction in the improvement assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
