

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Lawrence Ryan
DOCKET NO.: 08-24460.001-R-1 through 08-24460.002-R-1
PARCEL NO.: See Below

The parties of record before the Property Tax Appeal Board are Lawrence Ryan, the appellant, by attorney James E. Doherty, of Thomas M. Tully & Associates in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

DOCKET NO	PARCEL NUMBER	LAND	IMPRVMT	TOTAL
08-24460.001-R-1	14-33-302-065-0000	\$16,368	\$134,215	\$150,583
08-24460.002-R-1	14-32-302-066-0000	\$16,368	\$89,476	\$105,844

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property contains two parcels improved with a 3-story dwelling of masonry construction containing 4,609 square feet of living area. The dwelling is 9 years old. Features of the home include a full finished basement, central air conditioning, 3 fireplaces and a 3-car garage. The property has a 2,728 square foot site and is located in Chicago, North Chicago Township, Cook County.

The appellant's appeal is based on assessment equity and contention of law. The appellant submitted information on eight comparable properties described as 3-story dwellings of masonry construction that ranged in size from 3,854 to 4,940 square feet of living area. The dwellings range in age from 1 to 16 years. Six comparables feature full or partial basements, five with finished area. One is on a slab foundation and one is on a crawl-space foundation. All comparables feature central air conditioning, 1 to 3 fireplaces and 2, 2½ or 3½-car garages. The comparables have improvement assessments ranging from \$152,800 to \$203,815 or from \$35.31 to \$43.09 per square foot of living area. The subject's improvement assessment is \$223,691 or \$48.53 per square foot of living area. Based on this evidence, the

appellant requested a reduction in the subject's improvement assessment to \$184,360 or \$40.00 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties improved with 3-story dwellings of masonry construction that range in size from 4,004 to 4,431 square feet of living area. The dwellings are 7 years old. Each has the same neighborhood code as the subject property. Features of the comparables include full basements, three with finished area, central air conditioning, 1 to 3 fireplaces and 2 to 4-car garages. These properties have improvement assessments ranging from \$210,068 to \$228,431 or from \$49.90 to \$55.42 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant's contention of law argument was given little weight. The appellant argues the market values of comparable properties justified a reduction. The basis for this assertion was conversion of the assessments of the comparables to an estimated market value using the level of assessments in Cook County. Thus, this is no different from analyzing the "raw" assessments as discussed herein previously and no sales were provided to establish market value. The Board gave this argument little weight.

The appellant also contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessments by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989); 86 Ill.Admin.Code 1910.63(e). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the appellant's comparables #3 and #6 lacked basements and therefore received less weight in the Board's analysis. The remaining six comparables submitted by the appellant and all four of the comparables submitted by the board of review comparables are most similar to the subject in location, size, style, exterior construction, features and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$35.31 to \$55.42 per square foot of living area. The subject's improvement assessment of \$48.53 per square foot of living area falls within the range established by the best comparables in

this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement assessment was inequitable and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
