

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Louis Campos  
DOCKET NO.: 08-26898.001-R-1  
PARCEL NO.: 22-27-405-003-0000

The parties of record before the Property Tax Appeal Board are Louis Campos, the appellant, by attorney James E. Doherty, of Thomas M. Tully & Associates in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$13,008  
**IMPR.:** \$62,672  
**TOTAL:** \$75,680

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a 1-story dwelling of masonry construction containing 3,917 square feet of living area. The dwelling is 10 years old. Features of the home include a full finished basement, central air conditioning, 2 fireplaces and a 3-car garage. The property has an 18,067 square foot site and is located in Lemont, Lemont Township, Cook County.

The appellant's appeal is based on assessment equity and contention of law. The appellant submitted information on four comparable properties described as 1-story dwellings of masonry construction that ranged in size from 3,727 to 4,200 square feet of living area. The dwellings range in age from 7 to 16 years. Features of the comparables include full or partial basements, two with finished area, central air conditioning and 2½, 3 or 4-car garages. Three comparables feature 2 or 4 fireplaces. The comparables have improvement assessments ranging from \$58,598 to \$63,195 or from \$14.85 to \$16.73 per square foot of living area. The subject's improvement assessment is \$70,036 or \$17.88 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$62,672 or \$16.00 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on three comparable properties improved with 1-story dwellings of masonry construction that range in size from 3,314 to 3,785 square feet of living area. The dwellings range in age from 8 to 10 years. Each has the same neighborhood code as the subject property. Features of the comparables include full basements, one with finished area, central air conditioning, 1 or 2 fireplaces and 3-car garages. These properties have improvement assessments ranging from \$56,942 to \$61,355 or from \$16.21 to \$17.23 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is warranted.

The appellant's contention of law argument was given little weight. The appellant argues the market values of comparable properties justified a reduction. The basis for this assertion was conversion of the assessments of the comparables to an estimated market value using the level of assessments in Cook County. Thus, this is no different from analyzing the "raw" assessments as discussed herein previously and no sales were provided to establish market value. The Board gave this argument little weight.

The appellant also contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessments by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989); 86 Ill.Admin.Code 1910.63(e). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has met this burden.

The Board finds the appellant's comparables #2 and #4 and the board of review comparable #2 are the most similar to the subject in location, size, style, exterior construction, features and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$15.05 to \$16.73 per square foot of living area. The subject's improvement assessment of \$17.88 per square foot of living area falls above the range established by the best comparables in this record. Based on this record the Board finds the appellant has demonstrated with clear and convincing evidence that the subject's improvement assessment was inequitable and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
