

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Kenneth Camp  
DOCKET NO.: 08-27793.001-R-1  
PARCEL NO.: 25-15-102-026-0000

The parties of record before the Property Tax Appeal Board are Kenneth Camp, the appellant(s), by attorney Michael T. Reynolds, of Rieff Schramm Kanter & Guttman in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$ 5,821**  
**IMPR.: \$ 50,226**  
**TOTAL: \$ 56,047**

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject has 5,821 square feet of land, which is improved with a 36 year old, two-story, frame, mixed-use building. The subject's improvement size is 10,272 square feet of building area, which equates to an improvement assessment of \$4.89 per square foot of building area. On the Property Tax Appeal Board appeal form, the appellant indicated that the basis for appeal was comparable sales; however, the appellant did not submit any suggested comparable sales.

The appellant submitted descriptive and assessment information for four properties suggested as comparable to the subject. The comparables are described as mixed-use buildings. The comparables range in size from 3,795 to 7,705 square feet of building area and have assessments that range from \$2.63 to \$4.05 per square foot of building area. Additionally, the comparables are from 78 to 86 years old. The appellant did not list the comparables proximity to the subject property. The

assessor's property characteristic printouts submitted by the appellant indicate that the comparables have different neighborhood codes than the subject property.

Additionally, the appellant submitted two affidavits that describe the subject property and state that one of the store front units was vacant in 2008. The appellant also submitted Schedule E's for 2006 through 2008. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The Cook County Board of Review submitted its "Board of Review-Notes on Appeal," wherein the subject's improvement assessment of \$50,226 was disclosed. The board of review submitted ten sales comparables. The comparables range in sale price from \$17.92 to \$33.91 per square foot of building area. Based on this evidence, the board of review requested confirmation of the subject's improvement assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board (the "Board") finds that it has jurisdiction over the parties and the subject matter of this appeal.

When overvaluation is claimed, the appellant has the burden of proving the value of the property by a preponderance of the evidence. Cook Cnty. Bd. of Review v. Prop. Tax Appeal Bd., 339 Ill. App. 3d 529, 545 (1st Dist. 2002); National City Bank of Michigan/Illinois v. Prop. Tax Appeal Bd., 331 Ill. App. 3d 1038, 1042 (3d Dist. 2002) (citing Winnebago Cnty. Bd. of Review v. Prop. Tax Appeal Bd., 313 Ill. App. 3d 179 (2d Dist. 2000)); 86 Ill. Admin. Code § 1910.63(e). Proof of market value may consist of an appraisal, a recent arm's length sale of the subject property, recent sales of comparable properties, or recent construction costs of the subject property. Calumet Transfer, LLC v. Prop. Tax Appeal Bd., 401 Ill. App. 3d 652, 655 (1st Dist. 2010); 86 Ill. Admin. Code § 1910.65(c). Having considered the evidence presented, the Board finds that the evidence indicates a reduction is not warranted.

The Board finds that the appellant did not submit any comparable sales to support his contention that the subject is overvalued. The Board notes that the subject's assessment reflects a market value of \$27.28 per square foot of building area. The sales comparables submitted by the board of review range from \$17.92 to \$33.91. As such, the subject property is within the range of the sales comparables. Accordingly, the appellant has not met

the burden of proving by a preponderance of the evidence that the subject is overvalued.

The appellant submitted evidence to show that the subject is inequitably assessed. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Walsh v. Prop. Tax Appeal Bd., 181 Ill. 2d 228, 234 (1998) (citing Kankakee Cnty. Bd. of Review v. Prop. Tax Appeal Bd., 131 Ill. 2d 1 (1989)); 86 Ill. Admin. Code § 1910.63(e). To succeed in an appeal based on lack of uniformity, the appellant must submit documentation "showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property." Cook Cnty. Bd. of Review v. Prop. Tax Appeal Bd., 403 Ill. App. 3d 139, 145 (1st Dist. 2010); 86 Ill. Admin. Code § 1910.65(b). "[T]he critical consideration is not the number of allegedly similar properties, but whether they are in fact 'comparable' to the subject property." Cook Cnty. Bd. of Review v. Prop. Tax Appeal Bd., 403 Ill. App. 3d at 145 (citing DuPage Cnty. Bd. of Review v. Prop. Tax Appeal Bd., 284 Ill. App. 3d 649, 654-55 (2d Dist. 1996)). After an analysis of the assessment data, the Board finds that the appellant has not met this burden.

The Board finds that none of the comparables submitted by the appellant were similar to the subject in location. As such, the Board finds that the appellant has not met the burden of clear and convincing evidence, as there is no range of equity comparables with which to compare the subject. Therefore, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

Additionally, the appellant submitted documentation showing the income of the subject property. The PTAB gives the appellant's argument little weight. In Springfield Marine Bank v. Property Tax Appeal Board, 44 Ill.2d 428 (1970), the court stated:

[I]t is the value of the "tract or lot of real property" which is assessed, rather than the value of the interest presently held. . . [R]ental income may of course be a relevant factor. However, it cannot be the controlling factor, particularly where it is admittedly misleading as to the fair cash value of the property involved. . . [E]arning capacity is properly regarded as the most significant element in arriving at "fair cash value".

Many factors may prevent a property owner from realizing an income from property that accurately reflects its true earning capacity; but it is the capacity for earning income, rather than the income actually derived, which reflects "fair cash value" for taxation purposes. Id. at 431.

Actual expenses and income based on vacancy can be useful when shown that they are reflective of the market. Although the appellant's attorney made this argument, the appellant did not demonstrate through an expert in real estate valuation that the subject's actual income and expenses are reflective of the market. To demonstrate or estimate the subject's market value using income, one must establish, through the use of market data, the market rent, vacancy and collection losses, and expenses to arrive at a net operating income reflective of the market and the property's capacity for earning income. The appellant did not provide such evidence and, therefore, the Board gives no weight to this evidence and finds that a reduction based on market value is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
