

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Patricia O'Connor  
DOCKET NO.: 08-28069.001-R-1  
PARCEL NO.: 15-13-428-037-0000

The parties of record before the Property Tax Appeal Board are Patricia O'Connor, the appellant, by attorney James E. Doherty of Thomas M. Tully & Associates in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$3,533  
IMPR.: \$28,135  
TOTAL: \$31,668**

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a two-story dwelling of masonry construction containing 2,646 square feet of living area. The dwelling is 42 years old. The structure is a multi-family residence with three apartment units. Features of the dwelling include a partial basement with recreation room. The property has a 4,650 square foot site and is located in Forest Park, Proviso Township, Cook County.

The appellant's appeal is based on assessment equity. The appellant submitted information on six comparable properties described as two-story dwellings of masonry, frame or frame and masonry construction that ranged in size from 2,771 to 3,868 square feet of living area. The dwellings range in age from 42 to 103 years old. Each comparable has the same neighborhood code as the subject property. Features of the comparables include full basements with three having finished recreation rooms. Three comparables have garages ranging from 1.5 to 3.5 cars. The comparables have improvement assessments ranging from \$21,927 to \$32,692 or from \$7.78 to \$9.46 per square foot of living area. The subject's improvement assessment is \$28,135 or \$10.63 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$23,284 or \$8.80 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties improved with two-story multi-family dwellings of masonry construction that range in size from 2,300 to 3,028 square feet of living area. The dwellings range in age from 42 to 47 years old. Each has the same neighborhood code as the subject property. Three of the comparables have full basements and one comparable has a partial basement. Two of the comparables have either a recreation room or an apartment in the basement. One comparable has a fireplace and one comparable has a 3-car garage. These properties have improvement assessments ranging from \$26,033 to \$33,485 or from \$10.69 to \$11.32 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessments by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989); 86 Ill.Admin.Code 1910.63(e). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The parties to the appeal submitted a total of ten comparable properties for the Board's consideration. The Board gave diminished weight to appellant's comparables numbers 1, 3 and 6 for significant age differences when compared to the subject property. The Board also gave diminished weight to appellant's comparables 2, 3 and 4 due to larger dwelling size when compared to the subject. The Board finds the board of review comparables and appellant's comparable number 5 are the most similar to the subject in size, exterior construction, features and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$9.01 to \$11.32 per square foot of living area. The subject's improvement assessment of \$10.63 per square foot of living area falls within the range established by the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement assessment was inequitable and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
