

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Martha Karakitsos  
DOCKET NO.: 09-22536.001-C-1  
PARCEL NO.: 14-05-212-012-0000

The parties of record before the Property Tax Appeal Board are Martha Karakitsos, the appellant(s), by attorney George N. Reveliotis, of Reveliotis Law, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 81,000  
**IMPR.:** \$ 9,427  
**TOTAL:** \$ 90,427

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2009 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 7,500 square foot parcel of land improved with a 98-year old, one-story, commercial building and a two-story, multi-family residential building. The

property is located in Chicago, Lake View Township, Cook County. The property is a class 5-17 and 2-12 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted a 2009 rent roll, income and expense statements for 2001 through 2009, and a copy of a plat of survey. The appellant's attorney submitted a brief applying an attorney developed capitalization rate to the subject's actual income to arrive at an attorney estimated value for the subject.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$90,427. The subject's assessment reflects a market value of \$366,516 when applying the level of assessments for class 5 and class 2 property under the Cook County Real Property Assessment Classification Ordinance of 25% and 16%.

In support of its contention of the correct assessment the board of review submitted 10 sales comparables for the commercial portion of the property and one equity comparable for the residential portion.

In rebuttal, the appellant submitted a letter asserting the board of review's evidence was insufficient.

#### **Conclusion of Law**

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The appellant submitted documentation showing the vacancy and income of the subject property. The Board gives the appellant's argument little weight. In Springfield Marine Bank v. Property Tax Appeal Board, 44 Ill.2d 428 (1970), the court stated:

[I]t is the value of the "tract or lot of real property" which is assessed, rather than the value of

the interest presently held. . . [R]ental income may of course be a relevant factor. However, it cannot be the controlling factor, particularly where it is admittedly misleading as to the fair cash value of the property involved. . . [E]arning capacity is properly regarded as the most significant element in arriving at "fair cash value".

Many factors may prevent a property owner from realizing an income from property that accurately reflects its true earning capacity; but it is the capacity for earning income, rather than the income actually derived, which reflects "fair cash value" for taxation purposes. Id. at 431.

Actual expenses and income can be useful when shown that they are reflective of the market. Although the appellant's attorney made this argument, the appellant did not demonstrate through an expert in real estate valuation that the subject's actual income and expenses are reflective of the market. To demonstrate or estimate the subject's market value using income, one must establish, through the use of market data, the market rent, vacancy and collection losses, and expenses to arrive at a net operating income reflective of the market and the property's capacity for earning income. The appellant did not provide such evidence and, therefore, the Board gives this argument no weight. Moreover, the Board finds that sales comparables submitted by the board of review support the subject's assessment and that a reduction based on market value is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
