

FINAL ADMINISTRATIVE DECISION ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: John Kurek

DOCKET NO.: 09-22872.001-R-1 PARCEL NO.: 14-30-409-035-0000

The parties of record before the Property Tax Appeal Board are John Kurek, the appellant(s), by attorney Patrick J. Cullerton, of Thompson Coburn LLP in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds <u>no change</u> in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 36,000 **IMPR.:** \$ 58,966 **TOTAL:** \$ 94,966

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2009 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 7,500 square foot parcel of land that is improved with two improvements. Improvement #1 is a two-story frame multi-family dwelling. It has 2,857 square feet of dwelling area. Improvement #2 is a 4,920 square foot mixed-use building. It has 4,920 square feet of building area. The subject property is located in Lake View Township, Cook County. Both of the subject improvements are classified as class 2 properties under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables. The Board notes that the appellant's evidence only contains information regarding the subject mixed-use building (Improvement #2). The appellant did not submit information regarding the subject residential dwelling (Improvement #1). The appellant also submitted the subject property's income and expense information.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$94,966. Improvement #1 has an improvement assessment of \$30,366 or \$10.63 per square foot of living area. Improvement #2 has an improvement assessment of \$28,600 or \$5.81 per square foot of building area. In support of its contention of the correct assessment the board of review submitted information on three equity comparables with regard to Improvement #1 and three comparables with regard to Improvement #2.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

With regard to Improvement #1, the Board finds the best evidence of assessment equity to be the board of review comparables. These comparables had improvement assessments that ranged from \$14.05 to \$14.92 per square foot of living area. The subject's improvement assessment of \$10.63 per square foot of living area falls below the range established by the best comparables in this record.

With regard to Improvement #2, the Board finds the best evidence of assessment equity to be appellant's comparables #3 and #4 and the board of review comparables #1 and #3. These comparables had improvement assessments that ranged from \$4.75 to \$14.92 per square foot of living area. The subject's improvement assessment of \$5.81 per square foot of living area falls within the range established by the best comparables in this record.

Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the either of

the subject improvements was inequitably assessed and a reduction in the subject's assessment is not justified.

The appellant submitted documentation showing the income of the subject property. The PTAB gives the appellant's argument little weight. In <u>Springfield Marine Bank v. Property Tax Appeal Board</u>, 44 Ill.2d 428 (1970), the court stated:

[I]t is the value of the "tract or lot of real property" which is assessed, rather than the value of the interest presently held. . . [R]ental income may of course be a relevant factor. However, it cannot be the controlling factor, particularly where it is admittedly misleading as to the fair cash value of the property involved. . . [E]arning capacity is properly regarded as the most significant element in arriving at "fair cash value".

Many factors may prevent a property owner from realizing an income from property that accurately reflects its true earning capacity; but it is the capacity for earning income, rather than the income actually derived, which reflects "fair cash value" for taxation purposes. $\underline{\text{Id}}$. at 431.

Actual expenses and income can be useful when shown that they are reflective of the market. Although the appellant made this argument, the appellant did not demonstrate through an expert in real estate valuation that the subject's actual income and expenses are reflective of the market. To demonstrate or estimate the subject's market value using income, one must establish, through the use of market data, the market rent, vacancy and collection losses, and expenses to arrive at a net operating income reflective of the market and the property's capacity for earning income. The appellant did not provide such evidence and, therefore, the Board gives no weight to this evidence and finds that a reduction on this basis is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
