

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Steven Huy
DOCKET NO.: 09-23403.001-R-1
PARCEL NO.: 10-21-202-037-0000

The parties of record before the Property Tax Appeal Board are Steven Huy, the appellant, by attorney Brian P. Liston, of The Law Offices of Liston & Tsantilis, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 4,388
IMPR: \$ 53,579
TOTAL: \$ 57,967

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a three-story, multi-family building of masonry construction containing 4,510 square feet of living area. The building is 18 years old. Features of the building include two apartment units, a two-car garage, and a slab foundation. The subject is classified as a class 2-11 residential property under the Cook County Real Property Assessment Classification Ordinance and is located in Skokie, Niles Township, Cook County.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as three-story, multi-family buildings of masonry construction. The comparable properties all have the same neighborhood and classification codes as the subject. The comparable buildings are 21 years old and contain 4,510 square feet of living area with two apartment units. Features include central air conditioning, a two-car garage, and a slab foundation. The comparables have improvement assessments ranging from \$52,907 to \$54,298 or \$11.73 to \$12.04 per square foot of living area. The subject's improvement assessment is \$57,159 or \$12.67 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement

assessment be reduced to \$52,907 or \$11.73 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$61,547 was disclosed. The board of review presented descriptions and assessment information on three comparable properties described as three-story, multi-family buildings of masonry construction. The comparable properties all have the same neighborhood and classification codes as the subject. The comparable buildings are 16 years old and contain 3,472 square feet of living area with two apartment units. Other features include central air conditioning, a slab foundation, and a two-car garage. These properties have improvement assessments ranging from \$44,565 to \$49,113 or \$12.84 to \$14.15 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has met this burden.

Both parties presented assessment data on a total of six equity comparables. The comparables submitted by the board of review are considerably smaller than the subject property and received reduced weight in the Board's analysis. The Board finds the appellant's comparables are nearly identical to the subject in almost all respects. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables have improvement assessments that ranged from \$11.73 to \$12.04 per square foot of living area. The subject's improvement assessment of \$12.67 per square foot of living area falls above the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is not equitable and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
