

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: John Paschalis
DOCKET NO.: 09-30322.001-R-1
PARCEL NO.: 04-30-210-050-0000

The parties of record before the Property Tax Appeal Board are John Paschalis, the appellant(s), by attorney Michael E. Crane, of Crane and Norcross in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 4,258
IMPR.: \$ 67,354
TOTAL: \$ 71,612

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2009 tax year. The Property Tax Appeal Board (the "Board") finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject consists of a three-story dwelling of frame and masonry construction with 6,393 square feet of living area. The dwelling is 31 years old. Features of the home include a slab. The property has a 3,276 square foot site, and is located in Glenview, Northfield Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on six equity comparables.

The appellant also contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted an

income and expense report estimating the subject property had a market value of \$304,395.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$71,612. The subject property has an improvement assessment of \$67,354, or \$10.54 per square foot of living area. The subject's assessment reflects a market value of \$804,629, or \$125.86 per square foot of living area, including land, when applying the 2009 three year average median level of assessment for class 2 property of 8.90% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables. The board of review also submitted information on one comparable sale.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be appellant's comparables #1, #2, #3, #4, #5, and #6 and board of review comparables #1, #2, #3, and #4. These comparables had improvement assessments that ranged from \$8.48 to \$10.61 per square foot of living area. The subject's assessment of \$10.54 per square foot of living area falls within the range established by the best comparables in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed, and a reduction in the subject's assessment is not justified.

The appellant also contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant has not met this burden of proof and a reduction in the subject's assessment is not warranted.

The appellant submitted an income analysis of the subject prepared by an appraiser. The Board gives no weight to the appellant's income analysis, because it did not include the sales comparison approach to value. The court has held that "[w]here the correctness of the assessment turns on market value and there is evidence of a market for the subject property, a taxpayer's submission that excludes the sales comparison approach in assessing market value is insufficient as a matter of law." Cook Cnty. Bd. of Review v. Ill. Prop. Tax Appeal Bd., 384 Ill.App.3d 472, 484 (1st Dist. 2008). Therefore, the Board finds that reliance on the appellant's income analysis would be deficient as a matter of law.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
