Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2009 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of eleven land parcels improved with three industrial/warehouse buildings which are part of a cut-up and divided food processing facility. Building #1 is a part one-story and part two-story, office and production building. Building #2 is a one-story, water filtration building and building #3 is a one-story storage building. The buildings were constructed in 1994, while containing a total of 242,902 square feet of building area.

The appellant contends overvaluation as the basis of the appeal. In support of this argument, the appellant submitted an appraisal estimating the subject property had a market value of \$7,775,000 as of an effective date of January 1, 2009. The appraisal developed two of the three traditional approaches to value, the income and the sales comparison approaches to value. The appraisal indicated that an inspection was undertaken on March 23, 2010, while stating that the subject's land size is 366,490 square feet of land.

The board of review submitted "Board of Review-Notes on Appeal" disclosing the subject's total assessment of \$2,034,291. The subject's assessment reflects a market value of \$8,177,758 when applying the 2009 level of assessment for Class 5, commercial/industrial property of 25% as determined by the Cook County Classification Ordinance. The board's memorandum stated that the subject contained 352,990 square feet of land.

In support of its contention of the correct assessment, the board of review submitted raw, unadjusted data on seven suggested sale comparables.

Further, the board of review's memorandum stated that the information was obtained from various sources that were not verified or warranted. In addition, the memorandum stated that it should not be construed as an appraisal or estimate of value.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code 1910.63(e). Proof of market value may consist of

an appraisal, a recent sale of the property, comparable sales, or construction costs of the subject property. 86 Ill.Admin.Code 1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the best evidence of land size and market value to be the appellant's appraisal. The Board finds the subject property had a market value of \$7,775,000 as of the assessment date at issue. Since market value has been established, the 2009 level of assessment for class 5, commercial or industrial property of 25% as determined by the Cook County Classification Ordinance will apply. (86 Ill.Admin.Code 1910.50(c)(2)).

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
