

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Tony Roshangar
DOCKET NO.: 09-33168.001-R-1
PARCEL NO.: 17-05-301-026-0000

The parties of record before the Property Tax Appeal Board are Tony Roshangar, the appellant, by attorney Richard Shapiro in Evanston and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$10,118
IMPR.: \$48,514
TOTAL: \$58,632

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2009 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of two improvements situated on one parcel. Dwelling #1 is a two-story multi-family dwelling of masonry construction. Dwelling #1 is 119 years old and has 1,840 square feet of living area. Features include two apartment units and a concrete slab foundation. Dwelling #2 is a two-story multi-family dwelling of masonry construction. Dwelling #2 is 121 years old and has 1,840 square feet of living area. Features include two apartment units and a concrete slab foundation. The subject property has a 2,976 square foot site and is located in Chicago, West Chicago Township, Cook County. Under the Cook County Real Property Assessment Classification

Ordinance, both dwellings are classified as class 2-11 properties.¹

The appellant contends assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted a grid analysis with four comparables for dwelling #1.²

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$58,632. Dwelling #1 has an improvement assessment of \$24,589 or \$13.36 per square foot of living area. Dwelling #2 has an improvement assessment of \$23,925 or \$13.00 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on five equity properties as comparables for each dwelling.

The appellant submitted a rebuttal brief.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

Both parties presented information on a total of 19 suggested comparables for each dwelling. The appellant's comparables #1-4 submitted for dwelling #1 were considerably larger than dwelling #1 and received reduced weight in the Board's analysis. The

¹ When the appellant's attorney completed the residential appeal form, he did not submit any information for the subject property of this appeal. Instead, counsel submitted information for a different property that is the subject of another appeal before the Property Tax Appeal Board under docket number 09-33935.001-R-1.

² The appellant completed Section V of the residential appeal form with information on four suggested comparables for dwelling #1 and provided a spreadsheet with three additional comparables. The appellant also provided a spreadsheet with seven comparables for dwelling #2. Descriptive information about the additional properties was not provided.

appellant did not provide any descriptive information for the comparables not listed on the grid analysis (comparables #5-7 for dwelling #1 and comparables #1-7 for dwelling #2). Consequently, the Board gave little weight to these comparables. The lack of descriptive information about the improvements prevents a meaningful analysis to determine the similarities of the comparables to the subject property.

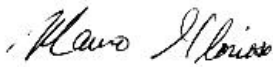

The Board finds that the comparables submitted by the board of review were similar to the subject's dwellings in location, age, and exterior construction. These comparables have improvement assessments that ranged from \$13.45 to \$15.43 per square foot of living area. Dwelling #1 has an improvement assessment of \$13.36 per square foot of living area, and dwelling #2 has an improvement assessment of \$13.00 per square foot of living area, thus demonstrating that the subject's improvements are not inequitably assessed. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvements were inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
