

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Lance LaBorde  
DOCKET NO.: 09-33657.001-R-1  
PARCEL NO.: 17-06-400-052-0000

The parties of record before the Property Tax Appeal Board are Lance LaBorde, the appellant, by attorney Richard Shapiro in Evanston and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$9,465  
**IMPR.:** \$51,479  
**TOTAL:** \$60,944

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2009 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a three-story, mixed-use and multi-family building of masonry construction. The building is approximately 116 years old and has 3,354 square feet of building area. Features include four apartment/commercial units and a concrete slab foundation. The property has a 2,784 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-12 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on six equity comparables; however, the appellant did not provide any information on the comparables' foundations and garages, if any.<sup>1</sup>

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$60,944. The subject property has an improvement assessment of \$51,479 or \$15.35 per square foot of building area. In support of its contention of the correct assessment, the board of review submitted information on one equity comparable.

The appellant's attorney submitted a rebuttal brief.

### Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

Both parties presented information on a total of seven suggested comparables. The appellant did not provide any information on the comparables' foundations and garages, if any. Consequently, the Board gave little weight to the appellant's comparables due to the lack of descriptive information about the improvements which prevents a meaningful analysis to determine the similarities of the comparables to the subject property. The Board finds the best evidence of assessment equity to be board of review comparable #1. This comparable was very similar to the subject in location, design, exterior construction, age, and building area. Board of review comparable #1 had an improvement assessment of \$56,890 or \$16.61 per square foot of building

<sup>1</sup> The appellant completed Section V of the residential appeal form with information on four suggested comparables and provided a spreadsheet with two additional comparables. However, descriptive information about the additional properties was not provided.

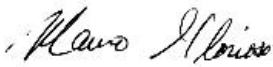

area. The subject has an improvement assessment of \$51,479 or \$15.35 per square foot of building area that is less than the improvement assessment of the best comparable in the record. Although comparable #1 had a full unfinished basement and a two-car garage unlike the subject, the superior attributes of a basement and a garage help to explain why this comparable had a higher improvement assessment than the subject. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
