

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Nicholas Lagattuta  
DOCKET NO.: 10-24430.001-R-1  
PARCEL NO.: 09-26-307-004-0000

The parties of record before the Property Tax Appeal Board are Nicholas Lagattuta, the appellant, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$5,153**  
**IMPR: \$55,414**  
**TOTAL: \$60,567**

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a two-story dwelling of masonry construction containing 2,786 square feet of living area. The dwelling was 6 years old. Features of the home include a full basement with a finished recreation room, central air conditioning and a 1.5-car detached garage. The property has a 6,650 square foot site and is located in Park Ridge, Maine Township, Cook County.

The appellant's appeal is based on assessment equity. The appellant submitted information on four comparable properties described as two-story dwellings of masonry, frame, or frame and masonry construction that ranged in size from 2,541 to 2,991 square feet of living area. The dwellings ranged in age from 6 to 56 years old. Each comparable has the same neighborhood code as the subject property with one comparable located on the subject's street. Features of the comparables include a full or partial basement and from 1 to 2.5-car garages. One comparable has a finished recreation room in the basement. One comparable has central air conditioning and one comparable has a fireplace.

The comparables have improvement assessments ranging from \$44,468 to \$50,157 or from \$16.51 to \$18.07 per square foot of living area. The subject's improvement assessment is \$55,414 or \$19.89 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$48,254 or \$17.32 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties improved with two-story dwellings of masonry construction that range in size from 2,650 to 2,844 square feet of living area. The dwellings ranged in age from 4 to 7 years old. Each has the same neighborhood code as the subject property with one comparable located on the subject's street. Features of the comparables include a full basement, central air conditioning and one or two fireplaces. Three of the comparables have a two-car garage. These properties have improvement assessments ranging from \$58,076 to \$62,914 or from \$21.25 to \$23.50 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessments by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989); 86 Ill.Admin.Code 1910.63(e). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The parties to the appeal submitted a total of eight comparable properties into the record for the Board's consideration. The Board gave reduced weight in its analysis to appellant's comparables #1, #2 and #3 due primarily to the significant age disparities when compared to the subject property. The Board finds the appellant's comparable #4 and all four of the board of review's comparables are the most similar to the subject in

location, size, style, exterior construction, features and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$50,157 to \$62,914 or from \$18.07 to \$23.50 per square foot of living area. The subject's improvement assessment of \$55,414 or \$19.89 per square foot of living area falls within the range established by the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement assessment was inequitable. Therefore, the Board finds that a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
