

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Grzegorz Piwko & Agnieszka Tomczyk
DOCKET NO.: 10-30901.001-R-1
PARCEL NO.: 03-19-410-011-0000

The parties of record before the Property Tax Appeal Board are Grzegorz Piwko & Agnieszka Tomczyk, the appellants, by attorney Richard J. Caldarazzo, of Mar Cal Law, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 3,987
IMPR.: \$17,380
TOTAL: \$21,367

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellants timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2010 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is a 40 year-old, split-level dwelling of frame and masonry construction containing 1,248 square feet of living area. Features of the home include a partial finished basement and a two-car garage. The property has a 7,595 square foot site and is located in Wheeling Township, Cook County. The property is a class 2-34 property under the Cook County Real Property Assessment Classification Ordinance.

The appellants contend assessment inequity and overvaluation as the bases of the appeal. In support of these arguments, the

appellants submitted information on three suggested equity comparables and on the July 14, 2010 sale of the subject for the price of \$239,000.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$27,824. The subject property has an improvement assessment of \$23,837, or \$19.10 per square foot of living area. The subject's assessment reflects a market value of \$311,230 or \$249.38 per square foot of living area, when using the board of review's indicated size of 1,248 square feet and when applying the 2010 three-year average median level of assessment of 8.94% for class 2 property as determined by the Illinois Department of Revenue. In support of its contention of the correct assessment, the board of review submitted information on four suggested equity comparables.

At hearing, each party reaffirmed and rested on the evidence previously submitted.

Conclusion of Law

The taxpayers contend assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellants did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be the appellants' comparable #3, and the board of review's comparables #2 and #4. These comparables had improvement assessments that ranged from \$17.95 to \$19.89 per square foot of living area. The subject's improvement assessment of \$19.10 per square foot of living area falls within the range established by the best comparables in this record. Based on this record, the Board finds the appellants did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and holds that a reduction in the subject's assessment is not justified.

The appellants also contend the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The

Board finds the appellants met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the best evidence of market value to be the purchase of the subject property in July, 2010 for a price of \$239,000. The appellants provided evidence demonstrating the sale had the elements of an arm's length transaction. The appellants completed Section IV - Recent Sale Data of the appeal disclosing the parties to the transaction were not related, the property was sold using a Realtor, the property had been advertised on the open market with the Multiple Listing Service and it had been on the market for three months. The Board finds the board of review did not present any evidence to challenge the arm's length nature of the transaction or to refute the contention that the purchase price was reflective of market value. Based on this record the Board finds the subject property had a market value of \$239,000 as of January 1, 2010. Since market value has been determined, the 2010 three-year average median level of assessment of 8.94% for class 2 property as determined by the Illinois Department of Revenue shall apply (86 Ill.Admin.Code §1910.50(c)(2)).

Therefore, the Board finds the subject's assessment is not reflective of market value and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
