

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jonas DaSilva  
DOCKET NO.: 10-30993.001-R-1  
PARCEL NO.: 16-12-325-036-0000

The parties of record before the Property Tax Appeal Board are Jonas DaSilva, the appellant, by attorney Christopher B. Kaczynski, of Smith Hemmesch Burke & Kaczynski in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$3,990  
**IMPR:** \$3,609  
**TOTAL:** \$7,599

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2010 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of masonry construction with 1,870 square feet of living area. Features of the home include a partial basement and a one-car garage. The property has a 2,850 square foot site and is located in West Chicago Township, Cook County. The subject is classified as a class 2 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant's appeal is based on overvaluation. In support of this argument the appellant submitted evidence disclosing the subject property was purchased on March 30, 2010 for a price of \$85,000. Based on this evidence, the appellant requested a reduction in the subject's assessment to reflect the purchase price.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$17,468. The subject's assessment reflects a market value of \$195,391 when using the 2010 three year median level of assessments for class 2 property of 8.94% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment the board of review submitted information on four suggested equity comparables with sales data on two of those properties.

At hearing, the appellant testified that the subject property was advertised on the open market with the Multiple Listing Service (MLS). The appellant testified that the property was listed at a lower price and the appellant paid more because there were multiple offers. The appellant also testified that the subject was renovated before it could be rented out and about \$25,000 was spent in the process. The board of review argued the subject was sold in a foreclosure sale and does not accurately reflect the market value. The board of review also argued that no evidence was submitted to show the subject's condition at the time of sale.

In rebuttal, appellant's counsel submitted a closing argument, marked as appellant's hearing exhibit #1, which argues that recent changes in the Property Tax Code make it clear that compulsory sales should be considered in reviewing and correcting assessments.

#### **Conclusion of Law**

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the best evidence of market value to be the purchase of the subject property in March, 2010 for a price of \$85,000. The appellant provided evidence demonstrating the sale had the elements of an arm's length transaction. The appellant completed Section IV - Recent Sale Data of the appeal disclosing the parties to the transaction were not related. The appellant also testified that the property was sold using a Realtor and the

property had been advertised on the open market with MLS. In further support of the transaction the appellant submitted a copy of the settlement statement. The Board finds the purchase price is below the market value reflected by the assessment. The Board finds the board of review did not present any evidence to challenge the arm's length nature of the transaction or to refute the contention that the purchase price was reflective of market value. On the contrary, the board of review submitted two sales comparables which sold for similar prices. Based on this record the Board finds the subject property had a market value of \$85,000 as of January 1, 2010. Since market value has been determined the 2010 three year median level of assessments for class 2 property of 8.94% shall apply. 86 Ill.Admin.Code §1910.50(c)(2).

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
