

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Rima Bencal
DOCKET NO.: 11-26813.001-R-1
PARCEL NO.: 03-08-310-014-0000

The parties of record before the Property Tax Appeal Board are Rima Bencal, the appellant, by attorney Christopher G. Walsh Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,177
IMPR.: \$20,477
TOTAL: \$24,654

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2011 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a multi-level dwelling of frame and masonry construction with 1,174 square feet of living area. The dwelling is approximately 42 years old. Features of the home include a partial basement with a recreation room, central

air conditioning and a 1-car attached garage. The property has an 8,795 square foot site and is located in Arlington Heights, Wheeling Township, Cook County. The subject is classified as a class 2-34 split-level residence under the Cook County Real Property Assessment Classification Ordinance.

The appellant's appeal is based on overvaluation. In support of this argument the appellant submitted evidence disclosing the subject property was purchased on December 28, 2009 for a price of \$245,000. Based on this evidence, the appellant requested a reduction in the subject's assessment to \$24,500.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$28,361. The subject's assessment reflects a market value of \$283,610 or \$241.58 per square foot of living area, land included, when using the level of assessments for class 2-34 property of 10% under the Cook County Real Property Assessment Classification Ordinance.

In support of its contention of the correct assessment the board of review submitted information on 3 equity comparables one of which sold. The comparables were improved with multi-level dwellings of frame and masonry or frame construction that had 1,174 or 1,238 square feet of living area. Comparable #3 sold in August 2010 for a price of \$260,000 or \$210.02 per square foot of living area, including land. The board of review submission also included an equity analysis using the three comparables.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the evidence warrants a reduction in the subject's assessment.

The appellant stated on the appeal that the subject property was purchased in December 2010 for a price of \$245,000 or \$208.69 per square foot of living area, including land. The appellant did not fully complete Section IV - Recent Sale Data of the appeal by failing to disclose whether or not the property was

exposed on the open market and did not disclose how long the property was exposed on the open market prior to the purchase, if at all. The appellant failed to provide a copy of the real estate sales contract; did not provide a copy of the closing statement; and provided no documents, such as the Multiple Listing Service listing sheet, demonstrating the manner in which the property was exposed to the open market. The appellant did submit a copy of the PTAX-203 Illinois Real Estate Transfer Declaration that indicated the property was advertised for sale.

The board of review submitted information on three comparables one of which sold. The Board gave no weight to the equity analysis presented by the board of review as this evidence did not address the appellant's overvaluation argument. The Board finds the best evidence of market value in the record to be board of review comparable #3 which sold in August 2010 for a price of \$260,000 or \$210.02 per square foot of living area, including land. This comparable was similar to the subject in location, style, living area, features, and age. This property also sold proximate in time to the assessment date at issue. The comparable sold for \$210.02 per square foot of living area, including land. The Board finds this sale also supports that the subject's sale price in December 2009 of \$208.69 per square foot of living area, including land, was reflective of market values at that time. The subject's assessment reflects a market value of \$241.58 per square foot of living area, including land, which is above that established by the comparable sale provided by the board of review and the subject's sale price. The Board gave reduced weight to the subject's sale due to the fact the sale did not occur proximate in time to the assessment date at issue but finds the one more recent sale supports a reduction in the assessment. Based on this record the Board finds a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
