

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Anca Alexandru
DOCKET NO.: 11-32587.001-R-1
PARCEL NO.: 15-14-319-029-0000

The parties of record before the Property Tax Appeal Board are Anca Alexandru, the appellant, by attorney Adam E. Bossov, of the Law Offices of Adam E. Bossov, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$2,562
IMPR: \$3,838
TOTAL: \$6,400

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2011 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story, multi-family dwelling of masonry construction. The dwelling is approximately 57 years old and has 3,358 square feet of living area. Features of the dwelling include four apartment units and a full unfinished basement. The property has a 6,834 square foot site and is located in Maywood, Proviso Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant's appeal is based on overvaluation. In support of this argument, the appellant submitted evidence disclosing the subject property was purchased in September 2011 for a price of

\$64,000. The appellant also submitted thirteen comparable sales. Based on this evidence, the appellant requested a reduction in the subject's assessment to reflect the purchase price.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$17,874. The subject's assessment reflects a market value of \$178,740 or \$53.23 per square foot of living area, land included, when applying the 10% level of assessment for class 2 residential properties under the Cook County Real Property Assessment Classification Ordinance. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables to demonstrate the subject was being equitably assessed.

The appellant's attorney submitted a rebuttal brief.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the only evidence of market value in the record was the purchase of the subject property in September 2011 for a price of \$64,000. The appellant provided evidence demonstrating the sale had some of the elements of an arm's length transaction. The appellant stated the subject's sale was not a transfer between related parties; the property sold at auction; the property had been advertised for sale with the Multiple Listing Service (MLS); the property sold in settlement of a foreclosure; and the seller's mortgage was not assumed. To document the sale, the appellant submitted a copy of the MLS listing sheet, which revealed that the property was on the market for 708 days prior to its sale. The MLS information also disclosed the subject's listing history. During its 708 days on the market, the subject's original listing price of \$144,900 was reduced to \$69,900 and later to its sale price of \$64,000. The Board finds the purchase price is below the market value reflected by the assessment. The Board finds the board of review did not present any evidence to challenge the arm's length nature of the transaction or to refute the contention that the purchase price was reflective of market value. The Board gave no weight to the board of review's equity information as it was not responsive to the appellant's overvaluation argument.

Based on this record, the Board finds a reduction in the subject's assessment is appropriate.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
