

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Gabriela Borja
DOCKET NO.: 12-01340.001-R-1
PARCEL NO.: 06-12-177-009

The parties of record before the Property Tax Appeal Board are Gabriela Borja, the appellant, by attorney Jerri K. Bush in Chicago, and the Kane County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Kane County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$10,687
IMPR.: \$12,658
TOTAL: \$23,345

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Kane County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2012 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a part one-story and part 1.5-story dwelling of frame construction with 1,314 square feet of living area. The dwelling was constructed in 1925. Features of the home include a partial unfinished basement, central air conditioning and a detached 370 square foot garage. The

property has an 8,976 square foot site and is located in Elgin, Elgin Township, Kane County.

The appellant's appeal is based on overvaluation. In support of this argument the appellant submitted evidence disclosing the subject property was purchased on April 1, 2011 for a price of \$70,000. Based on this evidence, the appellant requested a reduction in the subject's assessment to reflect the purchase price.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$44,253. The subject's assessment reflects a market value of \$132,693 or \$100.98 per square foot of living area, land included, when using the 2012 three year average median level of assessment for Kane County of 33.35% as determined by the Illinois Department of Revenue.

The board of review submitted a memorandum contending that the subject property's purchase was a HUD/Foreclosure.

In support of its contention of the correct assessment the board of review submitted information on three comparable sales located near the subject property. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In written rebuttal, counsel for the appellant contended that the sale price of the subject property when an arm's length transaction is synonymous with fair cash value as determined by case law applying the provisions of the Property Tax Code.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the best evidence of market value to be the purchase of the subject property in April, 2011 for a price of \$70,000. The appellant provided evidence demonstrating the sale

had the elements of an arm's length transaction. The appellant completed Section IV - Recent Sale Data of the appeal disclosing the parties to the transaction were not related, the property was sold using a Realtor, the property had been advertised on the open market with the Multiple Listing Service. The Listing & Property History Report reflect that the property was first advertised for sale in May 2010 with an asking price of \$120,000 with subsequent reductions until in January 2011 the asking price was \$74,000. In further support of the transaction the appellant submitted a copy of the Settlement Statement that reflected the payment of brokers' fees and a copy of the Multiple Listing Service data sheet which indicated that the property was an REO/Lender Owned, pre-foreclosure that was sold "as-is."

The Property Tax Appeal Board finds the purchase price of \$70,000 is below the market value reflected by the assessment of \$132,693. Moreover, the subject's estimated market value based on its assessment is also greater than the highest recent asking price of the subject property which was \$120,000. Furthermore, the Board finds the board of review did not present substantive evidence to challenge the arm's length nature of the transaction in light of the length of time the property was listed on the open market. In addition, the board of review did not refute the contention that the purchase price was reflective of market value in light of the original asking price and the subsequent reductions in asking price prior to the sale transaction. In light of the arm's length nature of the subject's sale transaction, the Board has given little weight to the sales presented by the board of review.

Based on this record the Board finds the subject property had a market value of \$70,000 as of January 1, 2012. Since market value has been determined the 2012 three year average median level of assessment for Kane County of 33.35% shall apply. 86 Ill.Admin.Code §1910.50(c)(1).

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
