

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jonathan & Kimberly Sceggel
DOCKET NO.: 12-01431.001-R-1
PARCEL NO.: 06-14-458-005

The parties of record before the Property Tax Appeal Board are Jonathan & Kimberly Sceggel, the appellants, by attorney Jerri K. Bush, in Chicago; and the Kane County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the **Kane** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 10,560
IMPR.: \$ 31,477
TOTAL: \$ 42,037

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellants timely filed the appeal from a decision of the Kane County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2012 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a part one and one-half and part two-story frame dwelling that has 1,500 square feet of living area. The dwelling was constructed in 1890. Features include a partial unfinished basement and a detached 280 square foot garage. The subject property has a .22 acre lot. The

subject property is located in Elgin Township, Kane County, Illinois.

The appellants submitted evidence before the Property Tax Appeal Board claiming overvaluation as the basis of the appeal. In support of this argument, the appellants submitted six suggested comparables and the subject's sale price.

The appellants' appeal petition indicated the subject property sold in August 2010 for \$67,000. The appellants submitted the Multiple Listing Service (MLS) sheet, the listing history and settlement statement associated with the sale of the subject property.

The comparable sales are reportedly located from .4 of a mile to 1.4 miles from the subject. The land sizes of four comparables were not disclosed. The comparables had varying degrees of similarity when compared to the subject. The comparables sold from February 2011 to April 2012 for prices ranging from \$25,000 to \$37,999 or from \$17.96 to \$25.70 per square foot of living area including land. Based on the evidence, the appellants requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$42,037. The subject's assessment reflects an estimated market value of \$126,048 or \$84.03 per square foot of living area including land when applying the 2012 three-year average median level of assessment for Kane County of 33.35%.

In support of the subject's assessment, the board of review submitted an income approach to value and four suggested comparable sales. The evidence was prepared by the Elgin Township Assessor's Office.

The comparables had varying degrees of similarity when compared to the subject. The comparables sold from May 2010 to December 2011 for prices ranging from \$120,000 to \$157,000 or from \$81.66 to \$98.68 per square foot of living area including land.

Because the subject is a rental dwelling, the assessor developed the income approach to value using the gross rent multiplier (GRM) methodology. Based on 55 suggested rental comparables, which had monthly rents ranging from \$750 to \$1,800, the assessor concluded the subject property would have a monthly rental rate of \$1,300 or a gross annual income of \$15,600. Using five suggested comparable sales that sold from February

2009 to December 2010, the assessor extracted a GRM of 9. Applying the GRM of 9 to the subject's estimated gross annual income of \$15,600, the assessor concluded the subject property had a market value of \$140,400 under income approach to value.

With respect to the evidence submitted by the appellants, the assessor argued the comparables are located on the east side of Elgin, but did not refute their proximate location in relation to the subject as provided by the appellant. The assessor further argued the comparables were foreclosures, bank owned, and/or sold in as is condition.

Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellants contend the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellants did not meet this burden of proof and no reduction in the subject's assessment is warranted.

The Board gave no weight to the subject's August 2010 sale for \$67,000. The Board finds the sale is dated in relation to the subject's January 1, 2012 assessment date, which is not a reliable indicator of market value.

The Board gave little weight to the estimate of value under the income approach prepared by the assessor on behalf of the board of review. The courts have stated that where there is credible evidence of comparable sales these sales are to be given significant weight as evidence of market value. In Chrysler Corporation v. Property Tax Appeal Board, 69 Ill.App.3d 207 (1979), the court held that significant relevance should not be placed on the cost approach or income approach especially when there is market data available. In Willow Hill Grain, Inc. v. Property Tax Appeal Board, 187 Ill.App.3d 9 (1989), the court held that of the three primary methods of evaluating property for the purpose of real estate taxes, the preferred method is the sales comparison approach. Since there are credible market

sales contained in the record, the Board placed most weight on this evidence.

The parties submitted ten suggested comparable sales for the Board's consideration. The Board gave little weight to comparables #2 and #4 submitted by the board of review. These properties sold in 2010, which are dated and less reliable indicators of market value as of the subject's January 1, 2012 assessment date. The Board finds the remaining comparables submitted by parties are most similar to the subject in location, age, design, size, features and sold more proximate in time to the subject's assessment date. They sold for wide ranging prices from \$25,000 to \$130,000 or from \$17.96 to \$84.95 per square foot of living area including land. The subject's assessment reflects a market value of \$126,048 or \$84.03 per square foot of living area including land, which is supported by the most similar comparable sales contained in this record. As a result of this analysis, the Board finds no reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
